COURSE DESCRIPTION

This seminar discusses issues on Canadian and comparative corporate law and governance arising from the impact of the fourth industrial revolution. The rapid expansion of blockchain technology, artificial intelligence, automation and e-commerce and the rise of big tech and platform corporations in Canada and around the world are increasingly modifying traditional business law concepts, norms and policies. These revolutionary changes require an examination of the ways in which business law should be adjusted to respond to the new economy and societal demands. The course will examine issues such as the new technology-driven changes to corporate law and governance; the impact of the new financial technology on business law; fiduciary duties of directors and officers in the gig economy and the transformation of employees' rights; executive pay and stakeholder capitalism;

corporate social responsibility in the digital economy; government intervention in recessionary economies and health emergencies; smart contracts and blockchain technology; the regulation of e-commerce; antitrust concerns associated with global big tech companies and platform corporations; consumer protection law, smart contracts and the health risk of the new technology.

TEACHING METHOD

The course is largely based on class discussions. The professor will provide an introduction to the topics explaining the central issues and presenting provocative questions. This will be followed by students' reading presentations. In every session, two students will discuss the readings under the guidance of the professor. The discussions will clarify, illustrate (with examples and modern applications) and criticize the claims made by the authors. This method seeks to engage students in an intensive discussion of the materials, which in turn will help them develop their critical skills.

ASSIGNMENTS, GRADING AND DEADLINES

All components must be completed in order to get a passing grade.

Standing in a course is determined by the course instructor subject to the approval of the Department and of the Faculty Dean. This means that grades submitted by the instructor may be subject to revision. No grades are final until they have been approved by the Department and the Dean.

COURSE WORK	WEIGHT	DEADLINE
Research Paper (12-15 double-spaced pages)	60%	April 12 th , 2023 (early submission is encouraged)
Class Participation	20%	T.B.A.
Reading Presentation	20%	T.B.A.

RESEARCH PAPER

The Final Paper

While the emphasis will be placed on the novelty of the argument and the critical analysis thereof, students should consider the following ideal paper expectations:

1. Topic: free topic but must be related to the course topics, relevant, very narrow!
2. Thesis: clear statement of very narrow argument at the outset (ideally in the introduction), novelty!
3. Research: breadth and depth of research focusing on argument.
4. Analysis: critical, interdisciplinary, depth, focus on argument, logic, balance

5. Originality: novelty, insight, thought provoking.
6. Evidence: primarily scholarly references to support claims; avoid quotations, instead paraphrase authors' ideas using your own words and citing source.
7. Readings: a minimum of 4 readings from the course kit must be cited. References to course readings do not necessarily have to be central to the paper argument. In part, this requirement is to confirm that students are familiar with the course materials and class discussions. Outside readings are welcome.
8. Organization: clear structure throughout paper i.e. introduction, development of argument by articulating the key claims with supportive references, conclusion
9. Style: clarity, flow, avoid long sentences and paragraphs, correct citation format (McGill format is preferred) and grammar.
10. Length: 12-15 double-spaced pages. Please do not waste space and time describing the topic without developing your argument or discussing issues that are not central to the argument of your paper.
11. Deadline: April 12th, 2023 (early submission is encouraged)
12. Submission: students must submit their final essays by the deadline via Brightspace dropbox. Email submissions of final papers are not permitted. Late submissions will be penalized (i.e. deduction of 2% per weekday).

The Process of Writing the Paper

The process of writing the paper involves three main steps. First, every student will submit and present her or his paper plan (1-2 pages) on the day scheduled for small group presentations. A paper plan must include a narrow topic, potential or working argument, ideas about how the argument will be developed and some initial sources. Second, students will also submit and present a full-written, well-referenced draft of their papers in small groups. This first draft must be submitted to the professor 2 days before the day scheduled for presentation. Students must highlight the thesis/argument statement and at least 2-3 key points and references that develop and support the thesis throughout their paper drafts. The discussion of paper drafts in class should provide important feedback that students should seriously consider in order to improve their papers. Students that have specific questions about their draft or the professor's feedback should consider emailing the professor to seek assistance. The third and last step involves the submission of the revised research papers on the deadline. While the submission of paper plans and drafts do not have a separate grade, compliance with these requirements will be factored in the final grade for the papers. The schedule is as follows:

Presentations of Paper Plans: Feb. 10th and 17th, 2023.

Presentations of First Paper Draft: March 17th, 24th and 31st, 2023

Submission of Final Paper: April 12th, 2023 (early submission is encouraged)

The schedule of presentations of paper plans and paper drafts will be confirmed in the first class.

READING PRESENTATIONS

Every student will give a presentation on the readings. This presentation will take the form of a summary of, or a critical response to, the assigned readings. For every class, there will be, at least, two students presenting on the readings. The first student will provide a brief summary of ALL the readings assigned for the relevant session. The summary should focus on analyzing the central claims and supportive evidence of the authors. The second student (the respondent) will criticize the authors' claims and provide comments on the presentation of the summary. This response must articulate a view as to whether the respondent agrees with the authors' claims and the presenter of the summary. Drawing on the readings, the strength of the summary presentation and the response should lie in the ability to examine or challenge the authors' views. Students are encouraged to use examples, counter-examples, outside readings, audio-visual materials or other evidence to support their positions on the issues. Both the presenter and the respondent must submit by email a brief written statement (1-2 pages) of their respective presentations 2 days before the day scheduled for presentation. Both the summary presentation and the response will be graded as part of the 20% portion of the total grade. This grade will mainly reward the serious effort made by the student to examine the materials. While students will take the materials seriously, there is no expectation that students will understand all the details of the readings.

The schedule of reading presentations will be confirmed in the first class. There are approximately 11-12 sessions in the term and it is expected that every student will have the opportunity to give a presentation.

CLASS PARTICIPATION

This portion of the grade will be based on weekly attendance and informed contribution to the class discussions. It is assumed that students will attend the sessions having read the materials assigned for each class. Every student must be prepared to provide informed comments on the readings. The professor will verify this by informally asking students to comment on the readings before or during the class discussion. Students' participation will be evaluated throughout each term. Students should consider multiple ways of actively engaging in the class discussion such as raising issues for discussion, asking questions, agreeing or disagreeing with the authors and class presentations, providing answers to important problems, taking minutes of the discussion or presenting examples or counter-examples (e.g. business news) to support a position.

Weekly Reading Reflections: Students must upload a 1-page weekly reflection to the Brightspace course website prior to every class. A reflection should show familiarity with the reading materials in any way that the student wishes to consider. These weekly reflections will be marked as part of students' class participation grade.

First AI-Robot Student

We will have our first artificial intelligence or robot student in this seminar. We will invite OpenAI ChatGPT to join us as the first AI guest student in our weekly corporate law discussions. The

AI student will have a voice and an in-classroom guardian. We will seek to engage the AI student after our first rounds of discussions to seek further information, opinion, and new critical questions and answers. The AI student's input will be discussed, assessed, and challenged in class. Human students are encouraged both to use their local skills, knowledge, and experiences to detect potential inaccuracies, biases, mistakes, or incompleteness in the AI student's input and to surpass it. This will be our first experiment with AI in teaching. We hope to engage another AI, namely China's competitor Wu Dao 2.0, who can provide us with a perspective from the East. Discretion about mutual privacy protection, global data collection, and machine learning will be exercised.

REQUIRED MATERIALS

All reading materials are available via ARES (Carleton University).

COVID-19 PREVENTION MEASURES

All members of the Carleton community are required to follow COVID-19 prevention measures and all mandatory public health requirements (e.g. wearing a mask, physical distancing, hand hygiene, respiratory and cough etiquette) and [mandatory self-screening](#) prior to coming to campus daily.

If you feel ill or exhibit COVID-19 symptoms while on campus or in class, please leave campus immediately, self-isolate, and complete the mandatory [symptom reporting tool](#). For purposes of contact tracing, attendance will be taken in all classes and labs. Participants can check in using posted QR codes through the cuScreen platform where provided. Students who do not have a smartphone will be required to complete a paper process as indicated on the [COVID-19 website](#).

All members of the Carleton community are required to follow guidelines regarding safe movement and seating on campus (e.g. directional arrows, designated entrances and exits, designated seats that maintain physical distancing). In order to avoid congestion, allow all previous occupants to fully vacate a classroom before entering. No food or drinks are permitted in any classrooms or labs.

For the most recent information about Carleton's COVID-19 response and required measures, please see the [University's COVID-19 webpage](#) and review the [Frequently Asked Questions \(FAQs\)](#). Should you have additional questions after reviewing, please contact covidinfo@carleton.ca

Please note that failure to comply with University policies and mandatory public health requirements, and endangering the safety of others are considered misconduct under the [Student Rights and Responsibilities Policy](#). Failure to comply with Carleton's COVID-19 procedures may lead to supplementary action involving Campus Safety and/or Student Affairs.

ACADEMIC ACCOMMODATIONS

Academic Accommodation

You may need special arrangements to meet your academic obligations during the term. For an accommodation request the processes are as follows:

Pregnancy obligation: write to me with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist. For accommodation regarding a formally-scheduled final exam, you must complete the [Pregnancy Accommodation Form](#).

Religious obligation: write to me with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist. For more details [click here](#).

Academic Accommodations for Students with Disabilities: [The Paul Menton Centre for Students with Disabilities](#) (PMC) provides services to students with Learning Disabilities (LD), psychiatric/mental health disabilities, Attention Deficit Hyperactivity Disorder (ADHD), Autism Spectrum Disorders (ASD), chronic medical conditions, and impairments in mobility, hearing, and vision. If you have a disability requiring academic accommodations in this course, please

contact PMC at 613-520-6608 or pmc@carleton.ca for a formal evaluation. If you are already registered with the PMC, contact your PMC coordinator to send me your Letter of Accommodation at the beginning of the term, and no later than two weeks before the first in-class scheduled test or exam requiring accommodation (if applicable). After requesting accommodation from PMC, meet with me to ensure accommodation arrangements are made. Please consult the PMC website for the deadline to request accommodations for the formally-scheduled exam (if applicable).

Survivors of Sexual Violence

As a community, Carleton University is committed to maintaining a positive learning, working and living environment where sexual violence will not be tolerated, and where survivors are supported through academic accommodations as per Carleton's Sexual Violence Policy. For more information about the services available at the university and to obtain information about sexual violence and/or support, visit: <https://carleton.ca/equity/sexual-assault-support-services>

Accommodation for Student Activities

Carleton University recognizes the substantial benefits, both to the individual student and for the university, that result from a student participating in activities beyond the classroom experience. Reasonable accommodation will be provided to students who compete or perform at the national or international level. Write to me with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist: <https://carleton.ca/senate/wp-content/uploads/Accommodation-for-Student-Activities-1.pdf>

For more information on academic accommodation, please visit: <https://students.carleton.ca/services/accommodation/>.

Plagiarism

Plagiarism is presenting, whether intentional or not, the ideas, expression of ideas or work of others as one's own. Plagiarism includes reproducing or paraphrasing portions of someone else's published or unpublished material, regardless of the source, and presenting these as one's own without proper citation or reference to the original source. Examples of sources from which the ideas, expressions of ideas or works of others may be drawn from include but are not limited to: books, articles, papers, literary compositions and phrases, performance compositions, chemical compounds, art works, laboratory reports, research results, calculations and the results of calculations, diagrams, constructions, computer reports, computer code/software, and material on the Internet.
