CALENDAR COURSE DESCRIPTION

Topics may include: the international sale of goods, finance of transnational transactions, international carriage of goods, insurance, agency and trading houses; other forms of trade, e.g., counter-trade, foreign investment; settlement of international disputes by litigation and arbitration.

COURSE DESCRIPTION

International transactions occur between private actors that are based in different jurisdictions. From a legal perspective, they are primarily governed by international contracts. International practices, codes and rules emanating from public and private organizations also articulate the rights and obligations of individuals participating in global trade. Moreover, several international agreements negotiated by states to liberalize economic relations and harmonize domestic legislation play a crucial role in the regulation of international transactions. Ultimately, international transactions involve dispute resolution mechanisms that must be available if one of the parties to a transaction fails to fulfill its obligations.

This course introduces you to the regulation of international transactions by focusing on legal principles that are relevant for specific international business transactions. It includes three main

parts. Part I focuses on the legal environment of international business. It covers issues such as the ethics of international business, international commercial dispute resolution and international trade regulation. Part II provides a comparative law perspective with respect to legal systems, contract law and international sales law. Part III addresses specific aspects of international business transactions, namely transport of goods, documentary transactions and international trade finance.

This course is provided through lectures that will be held in person, every week. The instructor will focus on various topics related to the regulation of international transactions, based on the required readings. Lectures will also include learning activities to demonstrate the practical implications of the acquired knowledge (e.g., debates and breakout activities). Classes will not be recorded on Zoom and will not be made available to participants on Brightspace.

By the end of the semester, you will be able to:

- understand the fundamental legal principles governing international transactions;
- compare legal approaches regarding international transactions;
- analyze legal issues underlying specific international transactions; and
- engage with the ethics of international transactions.

REQUIRED TEXTS

DiMatteo, Larry A. *International Business Law and the Environment: A Transactional Approach*, 4th ed (London: Routledge, 2020). The textbook is available to purchase at the Carleton University Bookstore.

You are expected to complete readings from the textbook before each class (see “Schedule” below). The readings will allow you to respond to the three quizzes and the final exam (see “Evaluation” below), in addition to the lectures. On average, readings represent 40 pages for each class.

Additional references from publicly available sources are included on Brightspace.

The final exam will be held in person, during the final examination period (April 15th to April 27th, 2023). The exact date and time will be scheduled by the Examination Services later in the term.

LATE PENALTIES AND REQUESTS FOR EXTENSIONS

The granting of extensions is determined by the instructor who will confirm whether an extension is granted and the length of the extension. For requests for extensions lasting less than 7 days, please complete the form at the following link and submit it to the instructor prior to the assignment due date: <https://carleton.ca/registrar/wp-content/uploads/self-declaration.pdf>.

Extensions for longer than 7 days will normally not be granted. In those extraordinary cases where extensions lasting longer than 7 days are granted, the student will be required to provide additional information to justify the longer extension (up to a maximum of 14 days).

When granting an extension, the instructor will balance three considerations: 1) issues raised by the student asking for an extension; 2) fairness for the other participants in the course; and 3) academic integrity.
