

## **MAE Departmental Seminar**

**Time/Location:** February 14, 2019 at 10:00am in ME3124

**Title:** Information session on the new rules, training requirements and compliance for remotely piloted aircraft systems

**Abstract:**

You may have seen the media reports last week that Transport Canada has released the final version of the new rules for remotely piloted aircraft systems (RPAS, formerly UAVs) last week. The portal for pilot exams and RPAS registration is already live. The rules come onto effect on 1 June 2019.

<https://www.tc.gc.ca/en/services/aviation/drone-safety.html>

Professor Laliberte will be holding an information session on the new rules, training requirements and compliance. You are invited to this session on 14 February 2019 from 10:00-12:30 in 3124ME.

We're hoping to reach anyone operating RPAS under the current rules (e.g. SFOC or exemptions) or planning UAV operations after 1 June. This includes faculty, staff, graduate and undergraduate students. If you or your students would like to attend this information session, please fill out the form below.
