Syllabus: The course will cover most of what is contained Sections 1-8 of the textbook; time permitting, part of Section 9 may also be covered.

Prerequisites: MATH 2000 with a grade of no less than C-, or permission of the School.

Grading scheme: Assignments 30%
    Midterm test (80 minutes) 20%
    Final Exam 50%

A Term Grade of less than 20/50 will result in an automatic failure regardless of the result of the Final Examination.

The midterm test will be written on Wednesday, November 6 during the lecture time slot.

Homework: Homework will be assigned weekly on each Monday, with a skip in the week preceding the midterm. It will be due on Thursday by 4pm, 9 days later. Three randomly chosen questions from each assignment will be graded. Tutorials can be used, in part, to clarify the homework questions and get hints. It is strongly advised that work on homework start well ahead of a tutorial (and the due date).
