

MATH 3800 E

Mathematical Modeling and Computational Methods

Winter 2020

Instructor: Dr. Steve Desjardins

Office: 5218 HP **Phone:** 520-2600, Extension 8999

E-mail: desjards@math.carleton.ca

Office Hours: Tuesdays and Thursdays 15:00 - 16:00

Lectures: Tuesdays and Thursdays 13:00 - 14:30 in 101 AT

Labs: (the Labs will start the week of January 13th)

E1	Mondays	10:30 - 11:30	3393 HP
E2	Mondays	12:30 - 13:30	3393 HP
E3	Mondays	15:30 - 16:30	3393 HP
E4	Thursdays	8:30 - 9:30	4385 HP
E5	Tuesdays	9:30 - 10:30	4385 HP
E6	Mondays	13:30 - 14:30	4385 HP

References:

(i) *A First Course in Mathematical Modeling (5th Ed)* by Giordano, Fox and Horton

(ii) *Applied Numerical Methods (with Matlab) for Engineers and Scientists (4th Ed)* by Chapra

Prerequisites: i) MATH 1107 or MATH 1104; ii) MATH 1005 or MATH 2007; and iii) knowledge of a computer language.

Course Contents: In this course, we will study Mathematical Modeling. What exactly that means will be one of the topics we discuss. We will look at discrete, continuous and random processes, difference equations and differential equations. We will also study the numerical methods that come up along the way.

Evaluation: Your course grade will be determined by the following formula:

- The final exam will count 50% and will be held during the Exam Period (April 13th - 25th).
- There will be two 80-minute midterm tests worth 15% each. The tests will be held in the lecture periods on Thursday, February 6th and Thursday, March 19th. If you miss a test, its weight will transfer to the final exam.

- There will be 4 assignments worth a total of 20%. The due dates will be January 23rd, February 13th, March 12th and April 2nd. **You must indicate your Lab Section on the front page of your assignments (failure to do so may result in your assignment not being marked).**

Calculators: You will need a basic scientific calculator for the tests and final exams. If you have a graphing and/or programmable calculator, you may find it useful for the assignments, but you will not be permitted to use it on the exams.

Academic Accommodations:

Pregnancy obligation: Write to me with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist. For more details visit the Equity Services website:
<http://www2.carleton.ca/equity/human-rights/policy/>

Religious obligation: Write to me with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist. For more details visit the Equity Services website:
<http://www2.carleton.ca/equity/human-rights/policy/>

Academic Accommodations for Students with Disabilities: The Paul Menton Centre for Students with Disabilities (PMC) provides services to students with Learning Disabilities (LD), psychiatric/mental health disabilities, Attention Deficit Hyperactivity Disorder (ADHD), Autism Spectrum Disorders (ASD), chronic medical conditions, and impairments in mobility, hearing, and vision. If you have a disability requiring academic accommodations in this course, please contact PMC at 613-520-6608 or pmc@carleton.ca for a formal evaluation. If you are already registered with the PMC, contact your PMC coordinator to send me your Letter of Accommodation at the beginning of the term, and no later than two weeks before the first in-class scheduled test or exam requiring accommodation (if applicable). After requesting accommodation from PMC, meet with me to ensure accommodation arrangements are made. Please consult the PMC website for the deadline to request accommodations for the formally-scheduled exam (if applicable).
