

### **Ahmed Almaskut (School of Mathematics and Statistics)**

*“He goes above and beyond for his students and he is passionate about what he does. He also takes time to listen to his students, never rushes in his courses.”*

### **Brandon Fodden (School of Mathematics and Statistics)**

*“Definitely put in effort to make classes enjoyable and interactive even though they were pre recorded. Also, I had an introduction for one class which was amazing.”*

### **Irwin Pressman (School of Mathematics and Statistics)**

*“He explains the concepts in a very simple manner and keeps cracking jokes to lighten the mood.”*

### **Kyle Harvey (School of Mathematics and Statistics)**

*“I had Kyle last year in the fall semester for calculus and he was awesome, probably the best math class I have taken here so far! Even once I wasn't his student anymore, I could still reach out to him for help and he would respond. He helped me get my feet off the ground in one of the classes this semester and I probably would've dropped the class if it wasn't for him! He does a great job running the math help centre too! Definitely a place I can always lean on for a bit of extra help! He's a great professor and he takes the time to care about his students!”*

### **Mark Blenkinsop (School of Mathematics and Statistics)**

*“For his engaging teaching style and his down to earth personality and lectures.”*
