# RESEARCH PARTICIPANTS NEEDED

Would you be willing to participate in a study with your romantic partner and help contribute to research that could improve the lives of people who have experienced sexual assault?

30% of Canadian women and 8% of Canadian men have been sexually assaulted.

By volunteering, you may contribute to research to help better understand this sensitive topic.

## Research Topic

Examining cardiovascular activity while romantic couples discuss positive aspects of their relationship.

## Measure your heart rate and blood pressure while talking about positive aspects of your romantic relationship!

You will have the chance to experience a psychophysiological experiment that records things like heart rate and blood pressure!

## Duration

This study should take about 2 hours to complete.

## Eligibility

1. Be at least 18 years of age
2. Be in a romantic relationship of six months or longer
3. Not have been diagnosed with a cardiovascular disease
4. Not have a pacemaker
5. Not be pregnant or think you might be pregnant

You will also be entered into a draw to win 1 of 3 \$100 Amazon gift cards!
