

Letting Students Self-Select Breakout Rooms

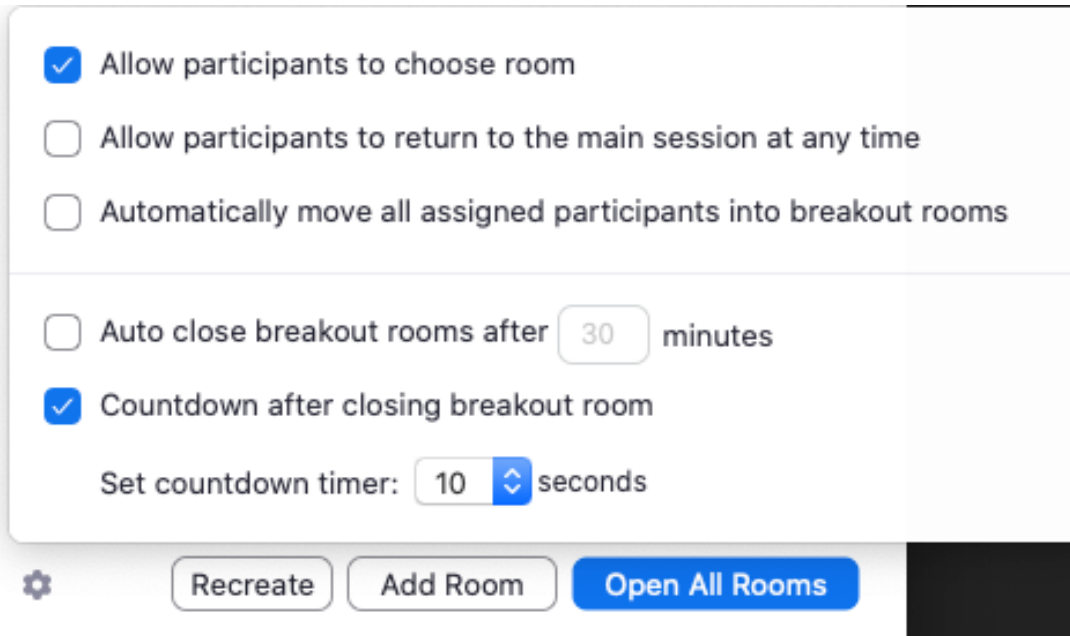

Step #1: Host clicks breakout room button in the Zoom meeting and selects the let participants choose room option.

Step #2: Host adds any number of breakout rooms and can optionally give titles to those rooms.

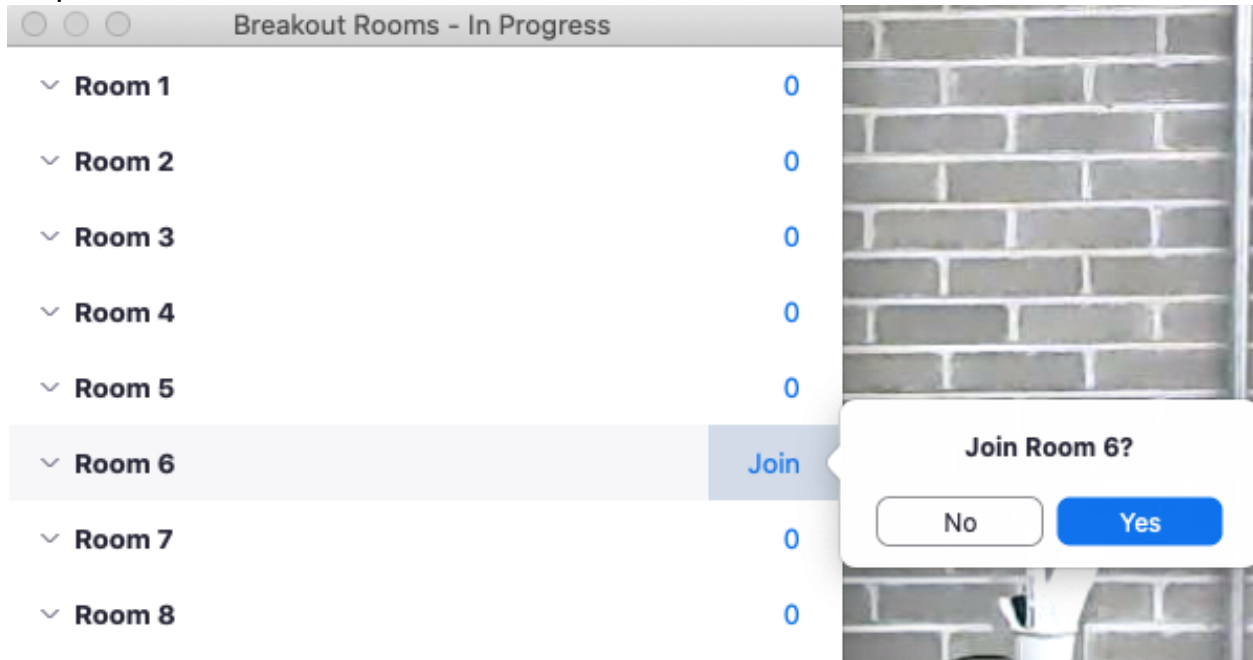

Step #3: Review breakout room options by clicking on the cog in the bottom left corner. ****We recommend setting the countdown after closing breakout room timer to 10 seconds****

Step #4: Host opens all rooms in the bottom right corner. Now students will see the breakout room button and click on it.

Step #5: Students select which breakout room to enter.

Step #6: Host can broadcast messages to all breakout rooms, as well as enter any breakout room they want. To end breakout rooms, Host selects close all rooms.
