

ORA Selection Process – Please read and sign

When selecting the host universities, please make three authentic choices because you will be placed in one of the universities selected.

It is important to provide academic justification for the choices of universities. Your comments will be taken into consideration during the placement process.

We cannot guarantee your first-choice university, but you will be placed in one of the three universities selected.

Placement is determined by a number of factors such as: preferred choices, field of study, spaces available, number of applicants, ranking by home university and equitable distribution throughout the 10 Rhône-Alpes partner universities.

Please be advised that the final decision regarding admission and level of study is made by the host university.

All placements are final. Given the deadlines for submission of applications, there are no waiting lists in case of cancellations.

I have read and understand the selection process. I would accept placement in any one of the universities I have listed.
