NEUR 4906 COMMUNITY PROJECT

- **Gain skills in problem-solving, teamwork, community-based research, and translational research.**
- **Develop a better understanding of how to work together with Indigenous communities in support of their self-determination and wellness.**
- **For those planning to enter the workforce or continue with professional or graduate programs, *including* research-based graduate studies in a related field.**
- **Interdisciplinary team works with a northern Indigenous community, leading to the co-development of a program, process or product that addresses a current and specific real-life health issue.**
- **Participate in a field research trip to the community, with much of the project co-development with the community being conducted virtually.**
