Clinical Practicum Guidelines and Procedures for Pre-clinical Requirements

1. Purpose and Scope

This policy outlines the clinical placement and laboratory requirements for all students in the Bachelor of Science in Nursing (BScN) program.

It ensures that Carleton University nursing students meet clinical placement requirements and adhere to the expectations of the College of Nurses of Ontario (CNO), the Canadian Nurses Association's (CNA) Code of Ethics, and clinical partner institutions.

To ensure the safety of clients/patients, students, and clinical partners, students must meet all non-academic and health and safety requirements before participating in clinical placements.

2. Definitions

Clinical Partner: any organization or institution providing clinical placements for Carleton University BScN students.

School of Nursing (SON) Faculty: employees of Carleton University working within the School of Nursing.

Students: individuals enrolled in the Bachelor of Science in Nursing (BScN) program at Carleton University.

The University: Carleton University.

3. Non-academic requirements

Students must meet the following non-academic requirements to be eligible for clinical placements:

- Criminal record check with Vulnerable Sector Screening (if 18 years of age and older).
- Attestation form meeting requirements of clinical, as determined by faculty.
- Cardiopulmonary resuscitation (CPR) certification (level C or HCP/BLS) (within past 12 months),
- N95 mask fit test (valid within 2 years).
- Completion of training modules, including but not limited to (per agency policy):
 - WHMIS,
 - Occupational Health & Safety (per university and partner requirements).
 - Signed confidentiality and consent forms (per university and partner requirements),

3.1 Accommodations

Accommodations may be made for valid, documented medical and/or religious reasons in accordance with university policies and human rights legislation. Documentation must be submitted to the SON by the specified due date each term.

4. Immunity and test requirements

Students must complete and submit proof of the following immunizations and tests:

- **Tetanus:** childhood series or adult booster within the last ten (10) years
- **Diphtheria:** T-dap booster after age 18 (NACI guidelines)
- **Pertussis:** included in T-dap
- **Polio:** childhood series
- **Measles:** two (2) documented doses or proof of immunity
- **Mumps:** two (2) documented doses or proof of immunity
- **Rubella:** one (1) documented dose or proof of immunity
- **Varicella (chickenpox):** two (2) documented doses or proof of immunity
- **Seasonal influenza:** annual vaccination is strongly encouraged to protect yourself and others.
- **COVID-19:** a minimum of two doses (subject to update) is strongly encouraged to protect yourself and others.
- **Hepatitis B:**
 - Completed vaccine series, AND
 - Serologic evidence of:
 - Hepatitis B surface antibody (anti-HBs titer)
 - Hepatitis B surface antigen (HBsAg)
 - Booster required if anti-HBs titer is negative
 - Post-vaccination serology one month after final dose

- **Tuberculosis (TB):**
 - Baseline 2-step TB skin test
 - Annual 1-step thereafter
 - Chest X-ray (if indicated)

4.1 Accommodations

Accommodations for immunization and test requirements may be made for valid, documented medical and/or religious reasons. Supporting documentation must be submitted in accordance with faculty procedures.

4.2 Additional immunization requirements

Additional immunizations or tests may be required based on evolving public health guidance or clinical partner policies.

4.3 Tracking immunization records

Students are encouraged to use the CANImmunize app to track or print their immunization records (<https://www.canimmunize.ca/>).

Immunize Canada is a national coalition promoting awareness and use of vaccines approved in Canada, in reference with National Advisory Committee on Immunization (NACI) recommendations.

4.4 Student responsibility

Students are responsible for submitting their vaccination and/or immunity records to the SON.

5. Non-compliance

Failure to comply with non-academic and immunity and test requirements will result in the removal from clinical placement which may jeopardize a student's ability to be successful in their degree.

This policy will be reviewed regularly to ensure alignment with the university policy, regulatory bodies, public health guidance, and clinical partner requirements. For any questions or clarifications regarding this policy, please contact the SON at nursingclinical@carleton.ca.
