Online format. This course will be entirely online. It will be a **blend** of pre-recorded (asynchronous) video lectures and mandatory Zoom (synchronous) meetings.

Typical weekly schedule. See calendar and email announcements for exceptions

Mondays 4:05pm Pre-recorded (asynchronous) video lecture uploaded on cuLearn

Wednesdays 4:05pm - 5:25pm Live (synchronous) meeting via Zoom

Course description

Objectives. This course introduces central philosophical notions, questions, theses, and arguments about the mind (philosophy of mind), reality (metaphysics), and knowledge (epistemology). Drawing from both historical and contemporary sources in the Western tradition, we will focus on three philosophical questions that combine these areas. First, what are minds and how can we know about them? Second, is there an external world and can we know about it? Finally, what is the nature and importance of epistemological notions like knowledge and rationality?

Learning outcomes. Become familiar with the methods of philosophy and with important notions, questions, theses, and arguments in philosophy of mind, metaphysics, and epistemology. Develop fundamental philosophical and critical thinking skills. These include the ability to (i) construct, defend, and evaluate arguments in one's own words, (ii) understand and think creatively (both individually and in teams) about complex concepts, arguments, theories, and problems, (iii) understand and analyze complex academic texts, (iv) write clearly and concisely, and (v) discuss constructively and respectfully with others about complex questions.

Course materials

Book you must purchase. Michael P. Lynch. 2014. *In Praise of Reason*. MIT Press.

Other readings: PDFs freely available via cuLearn.

Technological requirements. Computer with Internet connection, microphone, and camera. Please visit this page for details: <https://carleton.ca/its/help-centre/faq-technical-specs-for-new-students/>

How this online course will work

Course website (CuLearn). You must visit the course's cuLearn site frequently. That is where you'll find the video lectures, the slides, the latest version of the course calendar, the readings that are not from the book, the evaluations, additional resources for each week (further readings, further videos, and podcasts), and the link to book office hour appointments.

Readings. For the first part of the course, the readings will be available as free PDF documents on cuLearn. For the second part, the mandatory readings will be from Michael Lynch's book *In Praise of Reason*, which you must purchase. Additional (optional) readings will be made available each week as free PDF documents on cuLearn.

Asynchronous video lectures. A pre-recorded video lecture will be uploaded via cuLearn on most weeks (see calendar for details). The purpose of each pre-recorded video lecture is to complement the readings and to prepare you for the weekly Zoom meeting. New material will come from *both* the readings and the video lectures. Anything from the video lectures and the readings is susceptible to be tested. It is best to do the readings *before* watching the video lectures. And unless specified otherwise, you must watch the weekly video lecture *before* the weekly Zoom meeting, which happens two days after the video upload.

Synchronous Zoom classes. We will have a synchronous meeting via Zoom every week. Attending the weekly Zoom meeting is mandatory; it is your responsibility to do so. With a few exceptions – which are marked in red in the calendar – Zoom meetings won't introduce new material, won't take the form of traditional lectures, and won't be recorded. Their purpose is rather to help you understand the material, to prepare you for the evaluations, and to allow you to discuss the material with your classmates. Zoom meetings will usually feature a team exercise (similar to the quizzes) in small groups using breakout rooms, and a Q&A session.

For those reasons, Zoom meetings will require your active participation and attention. You will need a microphone to talk with your teammates and to ask questions. It's preferable (though not mandatory) to turn on your camera during team exercises. Turn off your microphone when you are not talking, but don't forget to unmute when you are talking! Turn off your camera when you are *not* in a breakout room.

Email and questions. You'll receive all important announcements and updates via your Carleton email. So, you must check your Carleton emails frequently. You are welcome to email me directly if you have questions. However, before you do so, please verify that the answer is not already in the course outline or in recent email announcements. And if your question is about the material, consider booking an office hour meeting instead. With everything being online, we are all flooded with emails, so let's make an effort not to multiply them beyond necessity! For the same reason, I ask you to give me about 48 hours to reply to your emails. You may send me a reminder if I have not replied after 48 hours. For important advice on these topics, please visit the following pages before the start of the semester <https://carleton.ca/online/online-learning-resources/communicating-for-academic-success/>; <https://carleton.ca/online/online-learning-resources/emailing-your-instructor/>.

Online civility. The course will feature online discussion. For that to work, it is crucial that you all observe basic norms of civility and respect. Please start by taking a look at this page: <https://carleton.ca/online/online-learning-resources/netiquette/>. To ask a question or make a comment during Zoom meetings, please raise your hand virtually. Do not interrupt others. When debating with classmates, state your own views directly and substantively: focus on reasons, assumptions and consequences rather than on who is offering them, or how. Engage others' views in the same terms. No topic or claim is too obvious or controversial but claims and opinions have a place in the discussion only when they are presented in a respectful, collegial, and constructive way. Violations of these guidelines will not be tolerated. Please reach out to me if you feel like those norms are not being respected.

Assessments and grading policy

Summary of assessments

Points	Assessment	Description	Distribution	Submission	Deadline
35%	8 quizzes; only top 5 counts	Multiple choice questions about readings and videos	About a week before deadline	Completed and submitted on cuLearn	See calendar
25%	Midterm take-home exam	1200-1500-word answers to questions about weeks 1 to 6	Feb 10 th	Word document submitted on cuLearn	Mar 3 rd 4:05pm
40%	Final take-home exam	1200-1500-word answers to questions about weeks 7 to 13	Apr 8 th	Word document submitted on cuLearn	Apr 27 th 4:05pm

Quizzes (35%). There will be 8 multiple choice quizzes during the semester. They will test your grasp of the material from the readings and the video lectures. You must do the quizzes *alone*, but they are open book. You may – and should – consult your notes, the slides, the readings, and the video lectures while you do them. The quizzes are not very long, but the answers are not obvious, so you must take your time to do them. Read the questions and answer choices carefully, and take the time to verify your answers with the material. Quizzes are not timed, so you don't have to do them in one sitting. Your progress is saved as you do them, so you can pause and return to them later, as long as it is before the deadline. You have about a week to do them and late quizzes are not accepted. All quizzes are automatically submitted on the deadline, whether or not they are finished. You'll have the opportunity to do 8 quizzes, but only those with the 5 best scores will count.

Midterm (25%) and final (40%) take-home exams. Each take-home exam will take the form of long answers (1200-1500 words total) to questions about the material from the readings and the video lectures. You will be required to explain parts of the material clearly, concisely, accurately, comprehensively, and in your own words. You will also be expected to formulate and defend your own view. You will submit both take-home exams electronically, by uploading your .doc or .docx file on CuLearn. You will have about three weeks to write each take-home. Late submissions will receive penalties. You will lose 5% of your assignment grade for each day late. You will receive additional instructions as the midterm and final questions are distributed. You should receive feedback about three weeks after your submission date.

Department of Philosophy and Carleton University Policies (Fall/Winter 2020-21)

Assignments:

Please follow your professor's instructions on how assignments will be handled electronically. There will be NO hard copies placed in the essay box this coming year.

Evaluation:

Standing in a course is determined by the course instructor subject to the approval of the Faculty Dean. This means that grades submitted by the instructor may be subject to revision. No grades are final until they have been approved by the Dean.

Deferrals for Term Work:

If students are unable to complete term work because of illness or other circumstances beyond their control, they should contact their course instructor no later than *three working days* of the due date. Normally, any deferred term work will be completed by the last day of the term. Term work cannot be deferred by the Registrar.

Deferrals for Final Exams:

Students are expected to be available for the duration of a course including the examination period. Occasionally, students encounter circumstances beyond their control where they may not be able to write a final examination or submit a take-home examination. Examples of this would be a serious illness or the death of a family member. If you miss a final examination and/or fail to submit a take-home examination by the due date, you may apply for a deferral no later than *three working days* after the original due date (as per the University Regulations in [Section 4.3 of the Undergraduate Calendar](#)). Visit the [Registrar's Office](#) for further information.

Plagiarism:

It is the responsibility of each student to understand the meaning of 'plagiarism' as defined in the Undergraduate or Graduate Calendars, and to avoid both committing plagiarism and aiding or abetting plagiarism by other students. ([Section 10.1 of the Undergraduate Calendar Academic Regulations](#))

Academic Accommodation:

You may need special arrangements to meet your academic obligations during the term:

- *Pregnancy or religious obligation:* write to your professor with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist. For more details visit the [EDC](#) website.
- *Academic accommodations for students with disabilities:* The [Paul Menton Centre](#) for Students with Disabilities (PMC) provides services to students with Learning Disabilities (LD), psychiatric/mental health disabilities, Attention Deficit Hyperactivity Disorder (ADHD), Autism Spectrum Disorders (ASD), chronic medical conditions, and impairments in mobility, hearing, and vision. If you have a disability requiring academic accommodations in this course, please contact PMC at 613-520-6608 or pmc@carleton.ca for a formal evaluation. If you are already registered with the PMC, contact your PMC coordinator to send your Letter of Accommodation at the beginning of the term, and no later than two weeks before the first in-class test or exam requiring accommodation. After requesting accommodation from PMC, meet with your professor to ensure accommodation arrangements are made.
- *Survivors of Sexual Violence:* As a community, Carleton University is committed to maintaining a positive learning, working and living environment where sexual violence will not be tolerated, and where survivors are supported through academic accommodations as per [Carleton's Sexual Violence Policy](#).
- *Accommodation for [Student Activities](#):* Carleton University recognizes the substantial benefits, both to the individual student and for the university, that result from a student participating in activities beyond the classroom experience. Reasonable accommodation must be provided to students who compete or perform at the national or international level. Please contact your instructor with any requests for academic accommodation during the first two weeks of class, or as soon as possible after the need for accommodation is known to exist.
