COURSE SUMMARY

The aim of this course is to introduce students to the nature of philosophical reflection and inquiry by exploring a number of traditional problems concerning the nature of knowledge, minds, persons, language and related issues. Among the issues to be considered are the following: What conditions must be satisfied, for example, if a person is to know something? How can we respond to skeptics who insist that genuine knowledge is impossible? What is consciousness? Is it something purely physical, a state of the brain, perhaps, or is it something over and above the physical world? What are persons? Is there an afterlife? Has the development of modern science undercut any rational basis for religious belief?

These and other issues have occupied the attention of reflective people for thousands of years. Although they must have answers, it proves extremely difficult to know what they are, for they do not seem to be directly amenable to the methods and procedures that we normally rely upon in forming beliefs in science or everyday life. This does not mean, however, that we may choose whichever answers we like; opinions are of no interest unless they can be supported by reasoned arguments. After looking at how some of the most prominent philosophical thinkers, both today and in the past, have tried to answer these questions, we will try to arrive some conclusions ourselves.

REQUIRED TEXT

A course pack of readings with the title, *Philosophy 1301: Mind, World and Knowledge*, has been prepared by the Instructor. This course pack can only be purchased at **Haven Books**, located at 43 Seneca Street, just off Campus. Their phone number is: (613) 730-9888.

CLASS FORMAT

The emphasis in the course will be on reasoning, analysis and critical evaluation. The role of the Instructor will be to guide students through the readings, and to illustrate the processes of analysis, interpretation and criticism by repeated example in class. Although attendance will not be taken, as it is not feasible in a class of this size, regular attendance at class is extremely important, and students are fully responsible for any material missed due to absence.

COURSE REQUIREMENTS

Midterm: There will be a midterm exam which will be worth 30% of the final grade. The format for the midterm will be as follows: a week or two before the date of the midterm students will be given a list of questions; the instructor will then select some of these for students to answer.

Term Paper: Students will be required to write a term paper worth 30% of the final grade. The paper will be about 5 – 8 pages in length (1500 – 2000 words). It will not be a research paper that requires library or Internet sources but will consist of a critical discussion of some topic or issue central to the course. A list of topics, along with guidelines for writing the paper, will be available early in the term.

Final Examination: There will be a final exam, worth 40% of the final grade, scheduled during the examination period. The format for the final will be similar to the midterm.
