COURSE DESCRIPTION

The aim of this course is to introduce students to philosophical reflection and inquiry by exploring a number of traditional problems concerning the nature of knowledge, minds, persons, language and related issues. Among the issues to be considered are the following: What conditions must be satisfied, for example, if a person is to know something? How can we respond to skeptics who insist that genuine knowledge is impossible? What is consciousness? Is it something purely physical, a state of the brain, perhaps, or is it something over and above the physical world? What are persons? Is there an afterlife? Has the development of modern science undercut any rational basis for religious belief?

These and other issues have occupied the attention of reflective people for thousands of years. Although they must have answers, it proves extremely difficult to know what they are, for they do not seem to be directly amenable to the methods and procedures that we normally rely upon in forming beliefs in science or everyday life. This does not mean, however, that we may choose whichever answers we like; opinions are of no interest unless they can be supported by reasoned arguments. After looking at how some of the most prominent philosophical thinkers, both today and in the past, have tried to answer these questions, we will try to arrive some conclusions ourselves.

REQUIRED TEXT

A course pack of readings with the title, Philosophy 1301: Mind, World and Knowledge, has been prepared by the Instructor. This course pack can only be purchased at Haven Books, which is located at 43 Seneca Street, just off Campus. Their phone number is: (613) 730-9888.

COURSE REQUIREMENTS

Midterm: There will be a midterm exam which will be worth 30% of the final grade. The format of the midterm will be as follows: one week before the midterm is held a list of study questions/topics will be distributed to students. On the midterm students will then be asked to answer a selection from this list.

Term Paper: Students will be required to write a term paper worth 30% of the final grade. The paper will be about 5 – 8 pages in length (1500 – 2000 words) and will be due in the final week of the course. It will not be a research paper that requires use of library or Internet sources but instead will consist of a critical discussion of some topic or issue central to the course. A list of topics, along with instructions and guidelines for writing the paper, will be available early in the term.
**Final Examination:** There will be a final exam, worth 40% of the final grade, scheduled during the examination period. It will have the same format as the midterm, and will cover only the material in the last half of the course.

**CuLearn**

Students must ensure that they have access to CuLearn for this course, as course notes as well as other information and material will be posted on it. (If you do not know how to access it, please contact the Instructor.)
