PREREQUISITES

BUSI 3005 (with a grade of C- or better)

The Sprott School of Business enforces all prerequisites.

Precludes additional credit for BUSI 2005.

COURSE CALENDAR DESCRIPTION

An intensive review of federal income tax laws and regulations as significant elements in the planning and decision-making process of taxable Canadian corporations. Emphasis on the tax planning function of corporate management and the associated accounting and reporting aspects.

This course deals with federal income tax laws and regulations and their impact on a corporation's financial and business decisions. Problems, issues and planning associated with the Income Tax Act are discussed as well as computations of taxable income and taxes payable by individuals, corporations, partnerships and trusts.

DROP COURSE POLICY

The deadline for academic withdrawal follows the dates prescribed by Carleton University:

<https://calendar.carleton.ca/academicyear/>

LEARNING OUTCOMES:

Accountants cannot make intelligent business decisions without first considering the tax implications of the various alternatives. An understanding of Canadian taxation is therefore necessary in order to make those decisions.

BUSI4005 is the second of two introductory courses (with BUSI3005) in income tax law which are designed to achieve the following objectives:

1. to explain the theoretical concepts behind the specific provisions of the law,
2. to apply the law in practical problems and case settings,
3. to interpret the law, considering the specific wording of the provisions, judicial decisions and the Canada Revenue Agency's (CRA) position, and
4. to introduce basic tax planning concepts through case application.

This taxation course is an introduction to tax principles and practices. The focus of BUSI3005 is on fundamental principles and personal income tax. The focus of BUSI4005 is on corporate income tax and some specialized topics.

METHOD OF INSTRUCTION

The format of the course consists of one 170-minute class per week. Due to time constraints not all chapter material will be covered in class. Students are responsible for the entire content of each chapter of the textbook as well as all additional topics discussed in class, except for those areas specifically excluded by the instructor.

Class sessions entail a mixture of lecture, case study, problem analysis, and class discussion. The content of any lecture presumes and expects you have carefully studied the assigned reading. Lectures emphasize major topics and readings, yet you are responsible for all assigned materials. It requires active learning, which means that the student must take responsibility for the learning that takes place. You must be prepared for each class by completing the assigned problems and readings. You are encouraged to ask questions and to stimulate discussion on topics that you have difficulty understanding.

GRADING SCHEME

Your grade for the course will depend on both individual work and group work outside of the class, and classroom contributions, as outlined below:

Participation	10
Assignments	40
Final exam	<u>50</u>
Total	<u>100</u>

*** To pass the course, students must obtain at least 45% on the final examination in addition to other requirements.**

**** Satisfactory In-term Performance**

- 1) The requirement for Satisfactory In-term Performance is set at 50% of all pre-final term work (i.e. participation, quizzes and assignments)
- 2) Unsatisfactory In-term Performance in this course will lead to Failure in this course (regardless of the performance at the Final exam))

Individual Class Participation:

Class participation is highly encouraged. The intent is to have a very interactive class. Students are expected to contribute to class discussions on a constructive and regular basis. Much of your learning will occur during class and case discussions. Points will be awarded for contributions to the class which include asking thoughtful questions, helping to understand complicated ideas, suggesting reasonable alternatives, and being willing to try out new ideas. Participation may include occasional announced and unannounced quizzes.

Self-study problems in the textbook will provide the student with additional opportunity to practice the course material.

Assignments:

Four (4) assignments will be assigned throughout the course. Each assignment will be worth 10% of the total marks. They may be completed individually, or in groups of two or three students. If completed in groups, only one assignment per group should be submitted on Brightspace. The cover page must include a statement signed by each student, indicating that each group member has contributed to the assignment and has respected plagiarism rules. The content of each assignment will be posted on the course website.

NO LATE ASSIGNMENTS WILL BE ACCEPTED. MAKE-UP ASSIGNMENTS ARE NOT PROVIDED.

Be sure to keep a copy for yourself of all your assignments and reports submitted. The time limit for revision of the assignments is limited to 2 weeks after the date of return.

Final Exam:

A three-hour Final Exam will be scheduled during the period April 11 to 26. The final date, time and place is to be announced. Material covered during the entire term is examinable on the final examination.

No books or papers shall be permitted in the examination room. A Tax Appendix with various information may be provided by the instructor as part of the final exam.

The only valid excuse for missing an exam is for medical reasons or death in the family and must be documented with a medical certificate. Any other reason (such as travel, etc...) will not be considered. In such circumstances, separate arrangements may be made. If you miss a deadline for a reason that is not deemed as legitimate, your mark will be zero.

DEFERRED EXAMINATIONS

If you wish to defer a Formal Final Exam, you – the student – must reach out to the registrar's office with the proper documentation prior to the deadline (please refer to <https://carleton.ca/registrar/deferral/> for dates). Once the request has been put through, your instructor will be notified for their approval. Your final exam will be formally scheduled. If you miss the deadline for applying for a deferral, please reach out to your instructor personally to discuss.

If you wish to defer a Midterm or an Assignment, please reach out directly to your instructor to discuss.

For more information or to apply for a deferral visit: <https://carleton.ca/registrar/deferral/>

STUDENT PREPARATION AND PARTICIPATION:

Background Reading

Each course module contains readings about tax concepts and issues. The content of any lecture presumes and expects you have carefully studied the assigned reading.

Homework Cases and Problems

Students learn technical tax materials best when they have to apply them, rather than listening to lectures. Therefore, you should expect to solve problems every week. Some of the cases and problems are for self-study; solutions are provided. Some of the cases and problems will be important preparation for the class discussions. You can't expect to become a professional athlete only by watching sports on tv. It's the same thing with taxation.

ATTENDANCE POLICY

Regular class attendance is important and required. I expect you to attend class and contribute to a quality discussion. Class and team discussion of the materials (e.g., readings, assignments, and cases) are an important part of the learning process. If circumstances prevent attendance at a class meeting, please remember that you are responsible for all materials discussed, handouts distributed, assignments covered, and announcements made.

CHANGES TO THE SYLLABUS

A syllabus is a tool to help you plan your time. Every effort is made to make the syllabus as complete as possible, but there may be occasions when changes are required. The instructor will announce any deviations from the syllabus in class and the change will be posted on the course web page.
