## Religious Charities in Canada

An examination of Other Religions

*François Brouard, DBA, FCPA, FCA*

*Manuel Litalien, PhD*

*Farnaz Zaredorahi, PhD student*

October 2025

### Introduction

The purpose of this study is to examine religious and faith-based charities (advancement of religion objects) and their categories and sub-categories in Canada (Christianity, Islam, Judaism, and Other religions). This is part of a mapping exercise, which will look at specific religion and registered charities for financial information.

The study aims to better understand the philanthropic sector of religious and faith-based charities with the following research questions (RQ):

For Other religions category and its sub-categories of registered charities in Canada:

RQ1A) How many religious charities per assets and revenue levels?

RQ1B) Who are the largest religious charities?

RQ1C) What are the distribution by provinces / territories of the religious charities?

The sub-categories of Other religions, based on Statistics Canada, which will be examined in this study are Baha'i, Buddhism, Hinduism, Jainism, Sikhism and Other Other Religions, totaling six sub-categories.

This research note summarizes the methodology and presents statistics on a specific category and its sub-categories on religious and faith-based charities (advancement of religion objects).

## Methodology

The methodology section summarizes the identification of Canadian religious charities and the data collection. A data-driven method was used to identify and analyze the religious charities. Most religious charities fall under “advancement of religion” charitable object / purpose. Brouard and Litalien (2024a, 2024b) have provided analysis of CRA statistics for all Canadian registered charities and for “advancement of religion” charitable object. More detailed information on the methodology is available in the Overview research note of the series (PARG 2025-62RN).

Figure A illustrates the selection and data collection process used in this research. The illustration presents the scope with four main components, the categories, the number of sub-categories per CRA classification and those used in Charitydata. Sources complete the figure.

The T3010 is the Registered Charity Information Return file with Canada Revenue Agency (CRA). The T3010 is the Registered Charity Information Return that is required for all registered charities operating in Canada. Information was obtained through the CharityData website, including T3010 information. Schedule 6 of the T3010 provides rich information on charities’ assets, liabilities, revenue, and expenditures. The focus is on Assets and Revenue. CharityData (2025) is a database on Canadian registered charities, compiling most — but not all — of the charities’ financial data found on the CRA’s website and gathered from their T3010 form. The CharityData Advanced Search tool was used to carry out data collection.

**Figure A – Selection and Data collection for Religious charities**

## Other Religions in Canada

The category Other religions are those that are not included in the categories Christianity, Islam, and Judaism.

Table 1 shows the sub-categories for Other religions.

Table 1 – The sub-categories for Other religions
