

**2026**

***Sprott  
Community  
Engagement  
Excellence Award***

***Recognizes exceptional and sustained contribution to building meaningful relationships between Sprott and partners across government, industry, the non-profit sector, and civil society.***

**Purpose and Spirit of the Award:**

Community engagement at its best is not transactional. It is built on sustained, reciprocal relationships where both Sprott and its community partners are genuinely better for the connection. This award is designed to recognize faculty who have invested in that kind of relationship over time, and whose contributions have left a meaningful mark on the organizations, communities, and students they have worked with.

The Award Committee is pleased to recognize Dr. François Brouard of Carleton University as the inaugural recipient of the 2026 award.

**François Brouard**
