

# TAX CITY ONTARIO 2023

Welcome to the series of tax cases called Tax City.

These cases are designed to have the student apply the material discussed in class. This version is the Ontario 2023 edition. Tax City is a fictitious city but you could represent Ottawa as Tax City.

To facilitate updates of tax cases, the following dates are used:

<u>19X9</u>	<u>20X0</u>	<b><u>20X1</u></b>	<u>20X2</u>	<u>20X3</u>
second previous year	previous year	<b>current year 2023</b>	subsequent year	second subsequent year

Where Canada Pension Plan (CPP) and Employment Insurance (EI) Premiums are paid by an employee, it is possible that no amount are included but only the mention “maximum”.

For 2023, the Employment Insurance (EI) premium rate for the employee is 1.63% of earnings to a maximum annual earnings amount of \$61,500. At this level of earnings, the maximum level of premium of \$1,002.45 is reached. Employers must pay a premium of 1.4 times the employee payment for a maximum of \$1,403.43.

For 2023, the CPP (Canada Pension Plan) for the employee is 5.95% of pensionable annual earnings. The maximum pensionable annual earnings is \$66,600 with a basic exemption of \$3,500. Thus, the maximum contribution is calculated as follows :

$$5.95\% \text{ of } (\$66,600 - \$3,500) = 5.95\% \text{ of } (\$63,100) = \$3,754.45.$$

For a self-employed individual, the maximum is twice the maximum amount or \$7,508.90. Employers must pay a contribution equivalent to the employee payment for a maximum of \$3,754.45.

	<u>Maximum</u> <i>(if exceeding the limits)</i>
Employment Insurance (EI) premium	\$1,002
Canada Pension Plan (CPP) contribution	\$3,754

Hope you will enjoy
