

## **Largest Gifts from Canadian Charities to other Qualified Donees for 2022**

By Mark Blumberg and Henri Pasha (June 17, 2024)

Canadian charities, depending on their objects can carry out charitable activities in four different ways. Some do all four.

- 1) A registered charity can conduct charitable activities using staff and volunteers.
- 2) A registered charity can work with an intermediary who is not a qualified donee as long as it has “direction and control” over its funds as set out in CRA’s two Guidances on the subject (at <http://bit.ly/ybUGAB>).
- 3) As of June 2022, a registered charity can make grants to grantees who are non-qualified donees under the qualifying disbursement rules in the Income Tax Act.
- 4) A registered charity can make a gift to a qualified donee. Here is a [list of qualified donees](#).

Here is a list of the 1,000 largest gifts from the 2022 T3010 Registered Charity Information Returns from registered charities to qualified donees. It is all gifts above \$1.4 m.

Keep in mind that some of the charities in their T3010 reporting have combined all gifts with an attached list and therefore it may be many gifts reflected as one. CRA should input each gift separately.

Also keep in mind the many caveats about T3010 information including that registered charities sometimes make mistakes when they file their return, and sometimes CRA inputs the information incorrectly.

#	Donor Canadian Registered Charity	Donee/Recipient Name	City of Recipient	Total Amount Gifts
1	Mastercard Foundation	ASHESI UNIVERSITY FOUNDATION CANADA	WATERLOO	\$ 252,674,252

### Limitations and Caveats

There are a number of cautions in dealing with the information from the T3010. You can access the CRA Charities Listing database directly on the CRA website at: [www.canada.ca/en/revenue-agency/services/charities-giving/list-charities/list-charities-other-qualified-donees.html](http://www.canada.ca/en/revenue-agency/services/charities-giving/list-charities/list-charities-other-qualified-donees.html). As well, Blumbergs also maintains Canada's largest charity information portal at [www.CharityData.ca](http://www.CharityData.ca) with up to 20 years of information on every Canadian registered charity. The portal is free and the aim is to increase transparency in the Canadian charity sector. With CRA removing over 10 years' worth of

information from the Charities Listing, [www.CharityData.ca](http://www.CharityData.ca) has far more years available. Currently CRA is only providing 5 years historical information on each charity.

- 1) The data in this note is based on the 2022 T3010 Registered Charity Information Return filings. Although all charities are supposed to file their T3010 within six months of their fiscal year end, some charities file late or do not file at all and then will lose their charitable status. Depending on the data set from CRA, not every charity may have filed their T3010 or been inputted yet.
- 2) Registered charities complete the T3010, and one person signs the form. The T3010 information is not independently verified by CRA when it is posted on the CRA site or placed in the CRA database.
- 3) Although an important legal document, the T3010 is often completed by volunteers or others who may have little understanding of the nuances of the *Income Tax Act* (Canada), limited language skills, may not have easy access to the correct information or are in a hurry to file the form to avoid deregistration. In the case of larger institutions, it is typically accountants or finance staff who prepare the T3010. One would expect greater accuracy with the larger institutions. However, as they also tend to be more complicated and involve bigger numbers, the likelihood of a significant inaccuracy in their T3010 filings is great.
- 4) The T3010s are filed with CRA and in many cases need to be coded by hand at CRA which can also introduce mistakes. Only a small number of T3010s have 2D bar code technology which can eliminate most processing errors on CRA's part. Canadian charities can, as of June 2019, electronically file the T3010 which does reduce errors and speed up the time that T3010 data is processed and available to the public. All charities should be filing their T3010's electronically using the [CRA MyBA system](#).
- 5) In some cases, those completing the T3010 for a charity are deliberately deceptive when completing the T3010. For example, an organization knows that it has substantial fundraising expenses but chooses to put them under charitable activities. Or an organization claims pharmaceuticals that it can purchase for \$50,000 are really worth \$50 million.
- 6) Don't rely on any of this information without checking with the charity and appropriate due diligence as required.
- 7) The T3010 is a tax form which is supposed to be completed according to guidance provided by the CRA in [Guide Completing the Registered Charity Information Return \(T-4033\)](#) and also various other CRA guidances and policies. The information inputted may not conform to Generally Accepted Accounting Principles (GAAP) and often the numbers will not match what is in a financial statement. You can obtain copies of financial statements, whether audited or not, on any registered charity by requesting the financial statements from CRA. These financial statements are filed with CRA but not placed on the CRA website and they can sometimes add further information. Charities are not required to post their financial statements on their website but charities should put up at least the last 5 years financial statements to make it easier for donors and the public to access them.
- 8) Some questions on the T3010 are more prone to error than others. Some questions are complicated, while others are quite straightforward. Some matters are easily quantifiable, like value of

[www.CanadianCharityLaw.ca](http://www.CanadianCharityLaw.ca)

official donation receipts, while others require allocation and other subjective measurements. Some questions, like revenue, are answered by almost every charity and if a charity makes a mistake, the likelihood is that such a mistake will not have much impact on the bigger picture. On the other hand, to take a historical example some numbers like political expenditures by Canadian charities are often incorrectly completed and even one or two charities by mistakenly inserting large numbers in this category can distort the picture. With the 2012 numbers, the top six organizations listing political expenditures appear to be all mistakes. This seems to have inflated the numbers by about 1000%. You can see my article "[Did the University of Windsor spend \\$285 million on political activities in 2012](#)". For 2013, the political numbers were \$171 million on the T3010. If one reviews the actual organizations, the number is probably about \$26 million. For 2017, the number is \$28 million. For 2018, the number is \$30 million. Unfortunately, today the CRA does not ask any questions about political activities of Canadian charities.

9) The T3010 asks certain questions. Many [important questions](#) are not asked on the T3010. Relying on the T3010 to make decisions on whether a charity is efficient or worthwhile to support is prone to failure. We have established a website at [www.SmartGiving.ca](http://www.SmartGiving.ca) which discusses in detail questions donors may want to ask before donating to charity.
