

## **Which Canadian charities spent money on foreign activities in 2022 and how much did they spend?**

By Mark Blumberg & Henri Pasha (June 19, 2024)

We recently reviewed the T3010 information for 2022. The database was prepared by the Charities Directorate of CRA in February 2024 and covers about 84,173 charities (which is over 98% of Canadian registered charities) and their 2022 T3010 returns.

We reviewed the Canadian charities that identified they did foreign activities through funding projects abroad (approximately 4,322 charities identified spending funds abroad). We also list which identified they received Global Affairs Canada funding and how much was spent on those arrangements.

The total amount claimed is about \$4,598,425,590. Keep in mind that additional funds are spent by Canadian charities for example when making gifts to “qualified donees” that are foreign universities registered with CRA or UN agencies and they are not included in this document. Also we have not covered in this document the new grant to grantee rules which only were brought in in 2022.

Canadian registered charities are currently required to disclose on the T3010 on line C4 and Box 2100 “*Did the charity carry on, fund, or provide any resources through employees, volunteers, agents, joint ventures, contractors, or any other individuals, intermediaries, entities, or means (other than qualified donees) for any activity/program/project outside Canada? Yes or No*”

On this list we included all charities who advise CRA that they spend more than \$100,000.

Those who had answered yes to question 2100 then complete “Schedule 2, Activities Outside Canada”. In Schedule 2 - Activities Outside Canada it asks:

Line 1 and line 200: *What were total expenditures on activities/programs/projects carried on outside Canada during the fiscal period, excluding gifts to qualified donees? \$^*

Line 4 and Box 220: *Were any projects undertaken outside Canada funded by Global Affairs Canada? Yes or No*

Line 230: *If yes, what was the total amount of funds expended under this arrangement? \$^*

Please review my caveats at the end about the reliability and usage of T3010 information.

## Limitations and Caveats

There are a number of cautions in dealing with the information from the T3010. You can access the CRA Charities Listing database directly on the CRA website at: [www.canada.ca/en/revenue-agency/services/charities-giving/list-charities/list-charities-other-qualified-donees.html](http://www.canada.ca/en/revenue-agency/services/charities-giving/list-charities/list-charities-other-qualified-donees.html). As well, Blumbergs also maintains Canada's largest charity information portal at [www.CharityData.ca](http://www.CharityData.ca) with up to 20 years of information on every Canadian registered charity. The portal is free, and the aim is to increase transparency in the Canadian charity sector. With CRA removing over 10 years' worth of information from the Charities Listing, [www.CharityData.ca](http://www.CharityData.ca) has far more years available. Currently CRA is only providing 5 years historical information on each charity.

- 1) The data in this note is based on the 2022 T3010 Registered Charity Information Return filings. Although all charities are supposed to file their T3010 within six months of their fiscal year end, some charities file late or do not file at all and then will lose their charitable status. Depending on the data set from CRA, not every charity may have filed their T3010 or been inputted yet.
- 2) Registered charities complete the T3010, and one person signs the form. The T3010 information is not independently verified by CRA when it is posted on the CRA site or placed in the CRA database.
- 3) Although an important legal document, the T3010 is often completed by volunteers or others who may have little understanding of the nuances of the *Income Tax Act* (Canada), limited language skills, may not have easy access to the correct information or are in a hurry to file the form to avoid deregistration. In the case of larger institutions, it is typically accountants or finance staff who prepare the T3010. One would expect greater accuracy with the larger institutions. However, as they also tend to be more complicated and involve bigger numbers, the likelihood of a significant inaccuracy in their T3010 filings is great.
- 4) The T3010s are filed with CRA and in many cases need to be coded by hand at CRA which can also introduce mistakes. Only a small number of T3010s have 2D bar code technology which can eliminate most processing errors on CRA's part. Canadian charities can, as of June 2019, electronically file the T3010 which does reduce errors and speed up the time that T3010 data is processed and available to the public. All charities should be filing their T3010's electronically using the [CRA MyBA system](#).
- 5) In some cases, those completing the T3010 for a charity are deliberately deceptive when completing the T3010. For example, an organization knows that it has substantial fundraising expenses but chooses to put them under charitable activities. Or an organization claims pharmaceuticals that it can purchase for \$50,000 are really worth \$50 million.
- 6) Don't rely on any of this information without checking with the charity and appropriate due diligence as required.
- 7) The T3010 is a tax form which is supposed to be completed according to guidance provided by the CRA in [Guide Completing the Registered Charity Information Return \(T-4033\)](#) and also various other

CRA guidances and policies. The information inputted may not conform to Generally Accepted Accounting Principles (GAAP) and often the numbers will not match what is in a financial statement. You can obtain copies of financial statements, whether audited or not, on any registered charity by requesting the financial statements from CRA. These financial statements are filed with CRA but not placed on the CRA website and they can sometimes add further information. Charities are not required to post their financial statements on their website, but charities should put up at least the last 5 years financial statements to make it easier for donors and the public to access them.

8) Some questions on the T3010 are more prone to error than others. Some questions are complicated, while others are quite straightforward. Some matters are easily quantifiable, like value of official donation receipts, while others require allocation and other subjective measurements. Some questions, like revenue, are answered by almost every charity and if a charity makes a mistake, the likelihood is that such a mistake will not have much impact on the bigger picture. On the other hand, to take a historical example some numbers like political expenditures by Canadian charities are often incorrectly completed and even one or two charities by mistakenly inserting large numbers in this category can distort the picture. With the 2012 numbers, the top six organizations listing political expenditures appear to be all mistakes. This seems to have inflated the numbers by about 1000%. You can see my article "[Did the University of Windsor spend \\$285 million on political activities in 2012](#)". For 2013, the political numbers were \$171 million on the T3010. If one reviews the actual organizations, the number is probably about \$26 million. For 2017, the number is \$28 million. For 2018, the number is \$30 million. Unfortunately, today the CRA does not ask any questions about political activities of Canadian charities.

9) The T3010 asks certain questions. Many [important questions](#) are not asked on the T3010. Relying on the T3010 to make decisions on whether a charity is efficient or worthwhile to support is prone to failure. We have established a website at [www.SmartGiving.ca](http://www.SmartGiving.ca) which discusses in detail questions donors may want to ask before donating to charity.
