

COURSE NAME AND CODE

Course	PSYCH 4700 B
Instructor	Robert West
Term	Winter
Email Address	robert.west@carleton.ca
Office Location	TBA
Office Hours	TBA

COURSE DESCRIPTION/INSTRUCTOR'S STATEMENT

This course will examine the relationship between cognition and emotion. We will consider the different theories about what emotion is and how these relate to cognition. We will examine the experimental results of emotion on attention, memory, and learning, and interpret these in terms of neuroscience and evolutionary theory. We will also consider integrated models of emotion and cognition and how these relate to different emotional issues. Course delivery will be asynchronous

EVALUATION

Online class presentation – 25%

Final paper – 75%

TEXT

No text books are required. All materials will be supplied online for free
