### COURSE DESCRIPTION/INSTRUCTOR'S STATEMENT

This course introduces students to the area of developmental psychology. Developmental psychology examines human development across the life span through physical, cognitive, and socio-emotional domains. In this course, there will be discussions of how we apply developmental theory in various contexts, including public policy, education, counselling, and health. We will learn about various theories, issues, methods, and findings.

### EVALUATION (SUBJECT TO CHANGE)

Assignments (15%), Practice tests (10%), Exams (70% - Best 2/3), Reflections (5%)
