

PSYC 4301 A : CHILD AND ADOLESCENT MENTAL HEALTH

Instructor	Dr. Maria Rogers
Term	Fall 2024
Course Delivery	In-Person
Email Address	Maria.Rogers@Carleton.ca
Office Location	SSRB 214F
Office Hours	To be determined at later date

COURSE DESCRIPTION/INSTRUCTOR'S STATEMENT

This course is an in-depth analysis of key domains and controversial issues in the field of child and adolescent mental health. Students will gain an understanding of trauma and its influence on child behaviour and health, broad assessment and treatment practices, special issues, and controversies regarding psychological disorders of children and adolescence. Dr. Rogers is a practicing child clinical psychologist and will take a clinical-informed problem-based learning approach to the teaching of this seminar.

EVALUATION (SUBJECT TO CHANGE)

Evaluation in this course will take many forms, including:

- Regular oral presentations
- Chapter reflections
- Film/book reflections
- Guest lecture reflections
- Hot topic presentations
- Case presentation
- Group debates
