### COURSE DESCRIPTION/INSTRUCTOR'S STATEMENT

This course is designed primarily to familiarize students with some of the fundamentals and advanced issues in forensic psychology research, and to strengthen critical thinking. This will involve readings on key topics and a review of the methodology commonly used in forensic psychology research. This course should help students to become better at interpreting and conducting research in forensic psychology.

**Course Prerequisites:** none

### EVALUATION

Students will be evaluated on the basis of participation, presentations, and assignments.

### TEXT

Journal articles to be determined.
