### COURSE DESCRIPTION/INSTRUCTOR'S STATEMENT

This course is an in-depth analysis of key domains and controversial issues in the field of child and adolescent mental health. Students will gain an understanding of trauma and its influence on child behaviour and health, assessment and treatment, special issues, and controversies regarding psychological disorders of children and adolescence. Dr. Rogers is a practicing child clinical psychologist and will take a clinical-informed problem-based learning approach to the teaching of this seminar.

### EVALUATION (SUBJECT TO CHANGE)

Evaluation in this course will take many forms, including:

- Chapter reflections
- Film reflections
- Hot topic presentations
- Case presentation
- Group Debates
