- Please review the Practicum in Community Psychology website before submitting an application.
- **All prerequisites MUST be met before registration will be permitted.**
- All students must have achieved 3rd-year standing (9.0 credits complete) or higher in a Psychology program (not open to Psychology minors).
- Here is the recommended process:
  
  1. Submit this application to the Department of Psychology.
  2. Receive departmental permission to register in the course. **Seating is limited.**
  3. Locate your placement.

- It is the responsibility of the student to locate a placement and a list of possible placements appears on the practicum website. Students are welcome to propose placements that do not appear on this list. Either way, all placements must be reviewed and approved by the Course Instructor. It is not necessary to have a placement confirmed before registration occurs. However, students are encouraged to have confirmation as soon as possible. This is important because some placements require a police check and this can take several weeks.

**Pick one:** Fall Registration  
Winter Registration  
No preference

Note: Some placements may include a research component. Please consult the Introduction to the Practicum website for more information on ethics requirements.

 Applications will be accepted **starting** April 2nd, 2019
