

PSYC 2307 A : HUMAN NEUROPSYCHOLOGY I

Instructor	Dr. Brian Tansley
Term	Fall 2026
Course Delivery	In-Person
Email Address	Brian.tansley@carleton.ca
Office Location	Loeb A500
Office Hours	By appointment

COURSE DESCRIPTION/INSTRUCTOR'S STATEMENT

An introductory course on the basic principles linking the nervous system to behaviour and thought in humans. Basic concepts of both human neuroanatomy and neurophysiology will be presented early in the course to provide a foundation for understanding the principles presented later on.

Note: This course is a prerequisite to PSYC3307 (Introduction to Neuropsychology II, which focuses upon function and structure of the human cerebral cortex. PSYC3307 is offered in the following (Winter 2027) semester. Both courses use the same text.

EVALUATION (SUBJECT TO CHANGE)

Midterm exam (Short answer format) 40%

Final exam (Short answer format) 60%

TEXT

Kolb, B. and Wishaw, I.Q., *Fundamentals of Human Neuropsychology* (8th edition) MacMillan, 2021. (Loose leaf edition recommended).
