COURSE DESCRIPTION/INSTRUCTOR'S STATEMENT

An introductory course on the basic principles of Perception. The course focuses upon the relationship between the information contained in the physical properties of sensory stimuli and the way in which the nervous system organizes and utilizes this information for creating and maintaining experience.

EVALUATION (SUBJECT TO CHANGE)

Midterm exam (Short answer format) 40%

Final exam (Short answer format) 60%

TEXT

There is, as yet, no assigned textbook for this course.
