### COURSE DESCRIPTION/INSTRUCTOR'S STATEMENT

Foundations of Developmental Psychology: This course focuses on developmental psychology focusing on stages from prenatal developmental to death. We will explore cognitive, social, emotional, and physical changes in the following stages: newborn, infancy, early childhood, middle childhood, adolescence, young adulthood, middle adulthood, and older adulthood.

### EVALUATION (SUBJECT TO CHANGE)

Two Midterms and final exam worth 30% each: exams may consist of multiple choice and short answer questions (e.g., list the following, true or false, matching, fill-in-the-blank exercises, short essay questions, case studies).

Participation (10%): Post-class questions on Kahoot (open for one week)!

### TEXT

Research articles and relevant information will be provided to students. No textbook required.
