Description: (as per the Undergraduate Calendar) Cross-cultural survey of religious institutions, focusing on theories and methodologies in the study of religion. Topics may include myth, totemism, cults, ritual, belief systems, altered states of consciousness, new religious and/or new age movements and the relationship of religion with other social institutions and processes.

Rationale: This course is an introductory survey of anthropological approaches to the study of religion. It traces the historical development of the subdiscipline, reviews the major theoretical perspectives, reviews the basic conceptual vocabulary, and discusses some of the issues and problems in research methodology.

Learning Outcomes: This course aims to give students a broad understanding of the study of religion in its social context. Through the lectures, readings, videos, and selected case studies we will investigate the role of religion in shaping society and how society, in turn, shapes religion. Students taking this course will learn disciplinary vocabulary associated with the religion(s) studied in this course. They will also be able to recognize personal situated-ness and personal bias in confronting religious phenomena. Through class discussions, students will gain confidence in presenting, arguing, and defending their ideas while engaging with course content. Through assignments, students will develop their ability to write coherent English prose at a university level. Further, students taking this course will be able to distinguish different methods of increasing knowledge in the field of the study of religion, including historical (largely based on texts) and social scientific (largely based on field work).

Welcoming Classroom Commitment: We each come from diverse backgrounds and experiences, and we will inevitably approach discussions and the subject matter in unique ways. Throughout the course we will collectively try to make sure that everyone feels safe and respected when presenting their ideas and understandings about course content. We will be respectful towards one another and do our best to reflect on our own biases and assumptions in order to make space for diverse views and ways of thinking.

Algonquin Land Acknowledgement: Carleton University acknowledges the location of its campus on the traditional, unceded territories of the Algonquin nation. In doing so, Carleton acknowledges it has a responsibility to the Algonquin people and a responsibility to adhere to Algonquin cultural protocols.

Instruments of Evaluation: The Evaluation Procedures of the university are described in the Undergraduate Calendar. Final grades are subject to the Dean's approval and are not official until that approval has been received. There are three instruments of evaluation plus potential bonus marks. As stated in the Academic Regulations of the University, Section 2.1: "To obtain credit in a course, students must meet all the course requirements for attendance, term work and examinations as published in the course outline."

Plagiarism is the passing off of someone else's work as your own and is a serious academic offence. For the details of what constitutes plagiarism, the potential penalties and the procedures refer to the section on Instructional Offences in the Undergraduate Calendar. Students are expected to familiarize themselves with and follow the Carleton University Student Academic Integrity Policy (See <https://carleton.ca/registrar/academic-integrity/>). The Policy is strictly enforced and is binding on all students. Academic dishonesty in any form will not be tolerated. Students who infringe the Policy may be subject to one of several penalties.

What are the Penalties for Plagiarism?

A student found to have plagiarized an assignment may be subject to one of several penalties including but not limited to: a grade of zero, a failure or a reduced grade for the piece of academic work; reduction of final grade in the course; completion of a remediation process; resubmission of academic work; withdrawal from course(s); suspension from a program of study; a letter of reprimand.

What are the Procedures?

All allegations of plagiarism are reported to the faculty of Dean of FASS and Management. Documentation is prepared by instructors and departmental chairs. Academic Integrity Policy

Plagiarism is presenting, whether intentionally or not, the ideas, expression of ideas, or work of others as one's own.

Plagiarism includes reproducing or paraphrasing portions of someone else's published or unpublished material, regardless of the source, and presenting these as one's own without proper citation or reference to the original source. Examples of sources from which the ideas, expressions of ideas or works of others may be drawn from include but are not limited to: books, articles, papers, literary compositions and phrases, performance compositions, chemical compounds, art works, laboratory reports, research results, calculations and the results of calculations, diagrams, constructions, computer reports, computer code/software, material on the internet and/or conversations.

Examples of plagiarism include, but are not limited to:

- any submission prepared in whole or in part, by someone else;
- using ideas or direct, verbatim quotations, paraphrased material, algorithms, formulae, scientific or mathematical concepts, or ideas without appropriate acknowledgment in any academic assignment;
- using another's data or research findings without appropriate acknowledgment;
- submitting a computer program developed in whole or in part by someone else, with or without modifications, as one's own; and
- failing to acknowledge sources through the use of proper citations when using another's work and/or failing to use quotations marks.

Co-operation or Collaboration

An important and valuable component of the learning process is the progress a student can make as a result of interacting with other students. In struggling together to master similar concepts and problems and in being exposed to each other's views and approaches, a group of students can enhance and speed up the learning process. Carleton University encourages students to benefit from these activities which will not generally be viewed as a violation of the Policy. With the exception of tests and examinations, instructors will not normally limit these interactions.

Students shall not co-operate or collaborate on academic work when the instructor has indicated that the work is to be completed on an individual basis. Failure to follow the instructor's directions in this regard is a violation of the standards of academic integrity. Unless otherwise indicated, students shall not co-operate or collaborate in the completion of a test or examination.

Group Work: There are many cases where students are expected or required to work in groups to complete a course requirement. Normally, students are not responsible for violations of this policy committed by other members of a group in which they participate.

The full Academic Integrity Policy can be found [here](#). More information on the process [here](#).

Academic Accommodation Policy

Carleton University is committed to providing access to the educational experience in order to promote academic accessibility for all individuals.

Academic accommodation refers to educational practices, systems and support mechanisms designed to accommodate diversity and difference. The [Student Rights and Responsibilities Policy](#) governs the non-academic behaviour of students. Carleton University is committed to building a campus that promotes personal growth through the establishment and promotion of transparent and fair academic and non-academic responsibilities.

Deferred Term Work

In some situations, students are unable to complete term work because of short-term incapacitation (illness, injury, emergency, or other circumstances beyond their control) which forces them to delay submission of the work.

1. Students who claim incapacitation as a reason for missed term work are held responsible for immediately informing the instructor concerned and for making alternate arrangements with the instructor. If the instructor requires supporting documentation, the instructor may only request submission of the University's self-declaration form, which is available on the [Registrar's Office website](#). The alternate arrangement must be made before the last day of classes in the term as published in the academic schedule. Normally, any deferred term work will be completed by the last day of term. In all cases, formative evaluations providing feedback to the student should be replaced with formative evaluations. In the event the

altered due date must extend beyond the last day of classes in the term, the instructor will assign a grade of zero for the work not submitted and submit the student's earned grade accordingly; the instructor may submit a change of grade at a later date. Term work cannot be deferred by the Registrar.

2. In cases where a student is not able to complete term work due to illness or injury for a significant period of time/or long-term, the instructor and/or student may elect to consult with the Registrar's Office (undergraduate courses) or Graduate Registrar (graduate courses) to determine appropriate action.
3. If a student is concerned the instructor did not respond to the request for academic accommodation or did not provide reasonable accommodation, the student should consult with the department/school/institute chair/director. If a mutually agreeable accommodation to complete course requirements prior to the course grade submission deadline cannot be achieved, the Associate Dean will become involved. If academic accommodation is not granted, and the student receives word **after** the academic withdrawal deadline, the student may submit a petition to the Registrar's Office (undergraduate courses)/Graduate Registrar (graduate courses) for a final grade of WDN (Withdrawn) in the course(s). If academic accommodation is not granted, and the student receives word **prior** to the academic withdrawal deadline, the student may elect to withdraw from the course(s).
4. Furthermore, if academic accommodation is granted, but the student is unable to complete the accommodation according to the terms set out by the instructor as a result of further illness, injury or extraordinary circumstances beyond their control, the student may submit a petition to the Registrar's Office (undergraduate courses)/Graduate Registrar (graduate courses). Please note, however, that the course instructor will be required to submit an earned final grade and further consideration will only be reviewed according to established precedents and deadlines. Deferred Final Exams

Students who are unable to write a final examination because of incapacitation (illness, injury, emergency, or extraordinary circumstances beyond a student's control) may apply for accommodation. Normally, the accommodation for a missed final examination will be granting the student the opportunity to write a deferred examination. In specific cases when it is not possible to offer a deferred examination, and with the approval of the Dean, an alternate accommodation may be made.

The application for a deferral must:

1. be made in writing to the Registrar's Office no later than three (3) working days after the original final examination or the due date of the take-home examination; and,
2. be fully supported by appropriate documentation. In cases of short-term incapacitation normally lasting no more than 10 days, students must include the

University's self-declaration form, which can be found on [the Registrar's Office website](#). Additional documentation is required in cases of incapacitation lasting longer than 10 days and must be supported by a medical note specifying the date of onset of the illness, the (expected) date of recovery, and the extent to which the student was/is incapacitated during the time of the examination. The University's preferred medical form can be found at the Registrar's Office [here](#).

Financial vs. Academic Withdrawal

Make sure that you are aware of the separate deadlines for Financial and Academic withdrawal!

Making registration decisions in Carleton Central involves making a financial and academic commitment for the courses you choose, regardless of attendance. If you do not attend, you must withdraw in [Carleton Central](#) within the published deadlines to cancel your registration. A fee adjustment is dependent on registration being canceled within the published [fee deadlines](#) and dependent on your course load. A course dropped after the deadline for financial withdrawal will receive a grade of Withdrawn (WDN), which appears on your official transcript.

Even if you miss the deadline for financial withdrawal, you might decide to drop a course to avoid a failure or a poor grade showing up on your student record and bringing down your CGPA. It is your responsibility to drop the course via Carleton Central within the published [deadlines](#) (see Academic Withdrawal).

If you are considering withdrawing from a course, you may want to talk to an advisor first. Course withdrawal may affect your student status, as well as your eligibility for student funding, immigration status, residence accommodation and participation in varsity sports, etc. Additionally, remember that once you choose your courses, you must use the “Calculate amount to pay” button to determine the correct amount of fees to pay.

Carleton Central is your one-stop shop for registration activities. If you are interested in taking a course, make sure to complete your registration. Simply attending a course does not mean you are registered in it, nor is it grounds for petition or appeal.
