### PARTICIPATION

The textbook is interactive and has several activities in it. These activities are partly graded by correctness of your response, but also for participation marks. You will have the opportunity to submit answers to the questions until you get the correct answer. The lectures will be delivered using Top Hat as well and there will be in-class questions embedded in the presentation. You will need to bring an electronic device that can access the internet with you to class so that you can participate. These activities will be graded as well and will count towards the participation mark. The breakdown will be 5% for the textbook questions and 5% for the in-class questions.

Students are expected to check their university email regularly in addition to visiting the course website on CuLearn often. This is how I will communicate with you. Classes will only be cancelled in extreme circumstances. Notification will appear on CuLearn if this is the case.

### WORKSHOPS

This course has been registered in the Incentive Program offered through the Centre for Student Academic Support (CSAS). CSAS Skill Development Workshops are designed to help students cultivate and refine their academic skills for a university environment. To earn 10% marks towards attendance/participation you are expected to attend 2 of workshops throughout the term. These classes are offered free of charge and are some of the perks of being a student at Carleton University.
Skill Development Workshops for the Fall 2017 term will be available starting September 18th, 2017 and must be completed by December 8th, 2017 to receive credit for the Incentive Program.

To see the complete Skill Development Workshop schedule, please visit mySuccess via Carleton Central. You can also view your CSAS Skill Development Workshop attendance history at any time by logging into mySuccess. In addition to the CSAS Skill Development Workshops hosted on campus, CSAS offers several online workshops. If you are interested in participating in an online workshop, you can enroll through the CSAS website: carleton.ca/csas.

Finally, please review the Incentive Program participation policies. You can find more information about these policies here: carleton.ca/csas/incentive-program/.

If you have any questions related to the Incentive Program or the CSAS Skill Development Workshops, please contact the Centre for Student Academic Support at csas@carleton.ca or 613-520-3822.

You will also find some very helpful workshops on essay writing, and I encourage you to take advantage of these.

**COURSE STRUCTURE**

The course is divided into six modules. The format will be standard lectures. The course schedule below is a guide to the material to be covered in each lecture. Adjustments may be made to the schedule based on class needs.

**RESEARCH PAPER**

Students will conduct research on a topic of the own choosing in consultation with the professor. A paper proposal and annotated bibliography will be due on October 30th. The paper will be due on the last day of classes (December 7th). Instructions for the bibliography and the paper, as well as a rubric for grading, can be found on CuLearn.

Your annotated bibliography and essay must be submitted in hard copy. I do not accept electronic submissions. These requirements are due by the end of their respective classes. If they are not in my hands by the time I leave the classroom on those dates, they will be considered late and a penalty will be assessed (see below).

**Late policy:** The penalty for late submission will be 5% subtracted from the grade for each working day late. After ten days, the late work will not be accepted.

Please review the notes on plagiarism at the end of the syllabus below.

The final examination will be scheduled by the Registrar's Office. Students are advised not to make travel plans during the final examination period. The final examination will be worth 25\% of the overall mark for the course. It will cover material from after the midterm.

**Grading System at Carleton University**

Standing in a course is determined by the course instructor, subject to the approval of the faculty Dean. Standing in courses will be shown by alphabetical grades. The system of grades used, with corresponding grade points and the percentage conversion is below. Grade points indicated are for courses with 1.0 credit value. Where the course credit is greater or less than one credit, the grade points are adjusted proportionately.

All course materials, including PowerPoint presentations, outlines, and other materials, are also protected by copyright and remain the intellectual property of their respective author(s).

Students registered in the course may take notes and make copies of course materials for their own educational use only. **Statement on Class Conduct**

The Carleton University Human Rights Policies and Procedures affirm that all members of the University community share a responsibility to:

- promote equity and fairness,
- respect and value diversity,
- prevent discrimination and harassment, and

preserve the freedom of its members to carry out responsibly their scholarly work without threat of interference.
Deferred Term Work

In some situations, students are unable to complete term work because of illness or other circumstances beyond their control, which forces them to delay submission of the work.

Students who claim illness, injury or other extraordinary circumstances beyond their control as a reason for missed term work are held responsible for immediately informing the instructor concerned and for making alternate arrangements with the instructor and **in all cases this must occur no later than three (3.0) working days after the term work was due.**

The alternate arrangement must be made before the last day of classes in the term as published in the academic schedule. Normally, any deferred term work will be completed by the last day of term. More information is available in the calendar.

Deferred Exams

Students who do not write/attend a final examination because of illness of other circumstances beyond their control may apply to write a deferred examination.

1. be made in writing to the Registrar's Office **no later than three working days after the original final examination or the due date of the take-home examination;** and

2. be fully supported by appropriate documentation and in cases of illness by a medical certificate dated no later than one working day after the examination or by appropriate documents in other cases. Medical documents must specify the date of the onset of the illness, the (expected) date of recovery, and the extent to which the student was/is incapacitated during the time of the examination. The University's preferred medical form can be found at the Registrar's Office forms and fees page.

The granting of a deferral also requires that the student has performed satisfactorily in the course according to the evaluation scheme established in the Course Outline, excluding the final examination for which deferral privileges are requested. Reasons for denial of a deferral may include, among other conditions, a failure to (i) achieve a minimum score in the course before the final examination; (ii) attend a minimum number of classes; (iii) successfully complete a specific task (e.g. term paper, critical report, group project, computer or other assignment); (iv) complete laboratory work; (v) successfully complete one or more midterms; or (vi) meet other reasonable conditions of successful performance.

More information can be found in the calendar.
Any questions related to deferring a Final Exam or Final Assignment/Take Home Examination should be directed to: Registrar’s Office

Withdrawal From Courses
