Developer Student Clubs

Our goal is to create impact. Impact **students**, and **empower** them to **impact** their communities through **technology**.

Meet Hastu

Solving local problems with technology

Concept of DSC

Google identifies the university student leaders and supports them with starting a student club on their campus.

These clubs provide students with the opportunity to:

- Grow their knowledge on developer technologies and more through peer to peer workshops and events.
- Gain relevant industry experience by solving problems for local organizations with technology based solutions.
- Showcase their prototypes and solutions to their local community and industry leaders.

Why do we do this?

The Students

Grow their knowledge and skills in developer technologies

The Community

Students will use their skills to solve local problems through technology

# 2018 DSC Impact

60K+student developers reached

22% women

200+ local organizations impacted

500+ solutions Built

84% of DSC Leads in India stated they got a job or internship due to DSC.

DSC Timeline
