

INTERNSHIP OPPORTUNITY

Position- Front End Developer

Gradenova is building an AI-powered Intelligent Teaching Assistant that is set to revolutionize the education industry. Our neural network model has almost human like accuracy when it comes to grading. Our complete solution offers features like AI powered grading, plagiarism check, personalised learning, student management, admin tasks and more.

Several schools have shown interest in working with us and we are now looking for a Front End Developer Intern who is motivated to combine the art of design with the art of programming. Depending on your performance, you may be offered a full-time role within the organization.

INTERNSHIP OPPORTUNITY

Responsibilities

- Develop new user-facing features
- Build reusable code and libraries for future use
- Ensure the technical feasibility of UI/UX designs
- Optimize application for maximum speed and scalability
- Assure that all user input is validated before submitting to back-end
- Collaborate with other team members and stakeholders

We will consider all applications, however, applications that demonstrate experience in front end development will be given preference.
