Junior Software Developer (DevOps), Toronto

Do you thrive in fast-paced technical environments and have a strong attention to detail? Are you eager to have a career where you are encouraged to meet your potential and have the opportunity to work for a prestigious company with an impressive global presence?

FDM is currently seeking a number of ambitious and driven candidates with the aptitude for IT to work as FDM consultants with our top clients, many of which are leading companies in the banking and financial services industry.

FDM creates and inspires exciting careers that shape our digital future. Through our Careers Program, we recruit and train those aspiring to become IT and business professionals before deploying them on to client sites worldwide. With centres across Europe, North America and APAC, FDM has shown exponential growth throughout the years, firmly establishing itself as an award-winning FTSE 250 employer.

**Junior Software Developers (DevOps)** focus on creating solutions using tools and automation to improve operations. DevOps roles can involve a myriad of projects, including: enhancing and streamlining operational processes through automation and integration; modifying existing software to correct errors, adapt to new hardware, or to improve performance; analyzing user needs and software requirements to determine feasibility of design within time and cost constraints; using scientific analysis and mathematical models to predict and measure outcome and consequences of design; and much more. Fast-track career progression is a key focus of FDM, and our program will put you on a pathway that could grow into leadership roles working within multinational organizations.

Essential Criteria:
• 4 year degree (preferably in Computer Science, IT, Engineering, Mathematics, or similar)
• A strong aptitude in IT and the interest and drive to expand your IT skill set
• Excellent communication and interpersonal skills
• A problem solver with a keen eye for detail
• A desire to work at a large financial firm and ability to increase your financial knowledge
• Able to engage yourself in a project and enjoy the challenges and processes involved
• Flexible, eager, ambitious, and adaptable to change
• Able to commit to work for FDM for a minimum of two years working as an FDM consultant following the training period
• Eligible to work in Canada (citizen/permanent resident/work permit with sufficient length of validity)

Technical Skills:

• Knowledge of one of the object-oriented programming languages (Java, C, C#, C++) and operating systems (Windows, UNIX)
• Foundation in Excel
• Exposure to SQL
• Strong knowledge of software development life cycle
• Passion for technology
