Employ Different Thinking

Specialisterne is an internationally recognized leader in harnessing the talents of people on the autism spectrum, or with other neurodivergence, providing businesses with talented employees and providing recruits with the opportunity to sustain meaningful employment. Originally founded in Denmark in 2004, Specialisterne – Danish for The Specialists – has operations in 14 countries worldwide. Specialisterne Canada was established in 2013.

Specialisterne helps businesses access this under employed talent pool, a community rich in individuals with tremendous skills and unique perspectives in science, technology, engineering, mathematics, finance, communications, arts and so much more.

Making Business Sense

Employer Partnerships
Businesses partner with Specialisterne because they recognize the business value in hiring people who think and communicate differently – an asset in problem solving, team building and innovation. The expertise Specialisterne has acquired over more than a decade is transferable, and we work closely with our partners to integrate proven practices into their operating environments.

Specialized Recruitment
Specialized recruitment, on-boarding and management practices provide an effective method of assessing candidate and job fit. It creates an environment that allows new employees, existing employees and managers to be at their best and most productive. This approach removes barriers, avoids bias and leads to equal or superior outcomes compared to standard recruitment practices that are a barrier to accessible employment opportunities.

By operating with transparency about who we hire and why we hire them, Specialisterne is a leader in the emerging social impact space in Canadian business.

25 thousand jobs in Canada
The objective for Specialisterne is to enable 25,000 jobs in Canada for people on the autism spectrum, or with other neurodivergence, contributing to an objective of one million jobs globally.
