Title	R-UG-2.0 Course Evaluation (incl. 2.1, 2.2, 2.2.1)

Program Requirements

2.0 Course Evaluation

2.1 Credit

To obtain credit in a course, students must meet all the course requirements for attendance, term work and examinations as published in the course outline.

2.2 The Course Outline

The instructor is required to provide to the students of each course a formal statement called the Course Outline. The course outline must be given to the students on or before the first teaching day of the course that term, in a document distributed in class or posted electronically.

The course outline must specify all the elements that will contribute to the final grade, as well as the overall grade breakdown for the course.

The course outline may specify requirements that must be satisfied for the student to **pass** ~~be eligible to write~~ the **course.** ~~final examination or a deferral of the final assignment/examination.~~

~~If no such conditions are explicitly mentioned in the course outline, all students are eligible to write the final assignment/examination or, where circumstances warrant, to apply to the Registrar's Office for deferral of the final assignment/examination.~~The course outline may also specify the requirements for those auditing a course, including attendance, to successfully complete the audit.

2.2.1 Early Feedback Guideline

Providing feedback to students on academic work, completed or in progress, is an integral part of teaching and learning in that it allows students to measure their understanding of material, the success of their learning strategies, and their progress on learning objectives. While the nature and frequency of such feedback will vary with the course and level, Carleton University is committed to providing students with appropriate and timely feedback on their work. Accordingly, wherever possible, and especially in first and second year courses, instructors are urged to include academic work that is assigned, evaluated and returned prior to the 25th teaching day of each term. More generally, all instructors are urged to include academic work that is assigned, evaluated and returned prior to the 40th teaching day of each term.

The spirit of this guideline should be followed during the summer term. In particular, all instructors are urged to include academic work that is assigned, evaluated, and returned at least two days prior to the last day to withdraw from the course in Early Late, or Full Summer term.

Course outlines should provide an indication of approximately when the first graded piece of work will be returned to students. In cases where a course does not lend itself to early feedback, this should be clearly noted on the course outline.
