2018-19 Curricular Change Proposals

BHUM-UHUM+	Humanities B.Hum. Combined Honours	Edited	HUMM	1 - This change modifies the language of the Bachelor of Humanities combined honours degree to allow BHUM students to do a combined honours with degrees other than the Bachelor of Arts, which is currently not possible. Students would graduate with a BHUM degree, as is currently the case when they combine the BHUM with a subject within the BA. Combinations with other degrees would be possible only where the other degree program allows it.2 - It also corrects an error in wording, replacing 'residency credit' with 'advanced credit'.Delete HUMS 4104 and replaced with HUMS 4500 (this is 4104, renumbered as 4500)
BHUM-UHUM60	Biology and Humanities B.Hum. Combined Honours	Edited	HUMM	This change adds BIOL 2600 "Introduction to Ecology" as an option in the Biology and Humanities B.Hum. Combined Honours degree.
MEM	Minor in Medieval and Early Modern Studies	Edited	HUMM	History is actually replacing 2001 and 2002 with 2000
GBA-1F	Child Studies B.A. General	Edited	IASS	Replacement of program requirement in section 4. Fixed typos in number of credits at #2 and #8
HBA-1F	Child Studies B.A. Honours	Edited	IASS	Replaced SOCI course in requirement #4
MHJ	Minor in Human Rights and Social Justice	Edited	IASS	Removed typos and strange formatting
TBD-1103	Human Rights Course Categories	Edited	IASS	Removal and replacement; addition of new course
TBD-1122	BGINS International Experience Requirement	Edited	KROEGINS	Update the Calendar by adding three courses to the BGInS IER.
HBA-22	Linguistics B.A. Honours	Edited	LALS	Add LING 1002 Introduction to Linguistics II as a program requirement under section A.1. Lower required 4th year LING credits in A.4. from 2.5 to 2.0
ELECTIVES-1108	Course Categories for Philosophy	Edited	PHIL	Add PHIL 2901, Truth and Propaganda, to two Course Categories for Philosophy.

2018-19 Curricular Change Proposals

HUMS 3205	HUMS 3205: Platonism and Idealism	Deleted	HUMS 3205 has been in the B.Hum. curriculum since the early 2000s, but it has rarely been taught. It was designed as a course that situates philosophical ideas drawn from the ancient Greeks to German Idealism in relation to each other and to wider European cultural developments.
HUMS 3500	HUMS 3500: Ancient and Medieval Intellectual History	Added	HUMS 3205 has been in the B.Hum. curriculum since the early 2000s, but it has rarely been taught. It was designed as a course that situates philosophical ideas drawn from the ancient Greeks to German Idealism in relation to each other and to wider European cultural developments.This change splits the old HUMS 3205 in two, while widening its scope. It allows the two new courses to perform functions similar to that of HUMS 4104 "Modern Intellectual History," which was added to the curriculum after HUMS 3205, and which will be renumbered as HUMS 4500.

2018-19 Curricular Change Proposals

Code	Title	Status	Academic Unit	Summary (summary)
MAS-31	M. Architectural Studies	Edited	ARCH	1. ARCH 5101 is [1.0 credits] over both terms.2. 0.5 credit elective to Year 2
MACC-73	Master of Accounting	Edited	BUSI	1) Added new course - ACCT 5128 (0.25) Strategy for Professional Accountants in compulsory course list2) Removed MBA Elective requirement as well as list of MBA Elective courses for MAcc students3) Updated number of compulsory credits to 5.0
TBD-1542	MBA Concentration in Business Analytics	Edited	BUSI	The addition of BUSI 6901 as an elective in the concentration. ITIS 5408 will be added as an option and piggybacked with the undergraduate course BUSI 4408.
TBD-1112	MBA Core Course Requirements	Edited	BUSI	These changes will create an integrative, experiential core course in each term which will help prepare students to solve real world business problems. Students in the IDM concentration who have not taken accounting previously will need to either complete additional background preparation for ACCT 5002 or take ACCT 5001 as an elective.
TBD-1304	M.A.-M.B.A.	Edited	BUSIECON	The updated requirements reflect the changes in the MBA program core including the addition of STGY 5903 [0.5] Strategic Concepts and the elimination of TOMS 5301 [0.25] Modeling Business Decisions from the core.
MSC-62	M.Sc. Chemistry	Edited	CHEM	Clarification that student s must take CHEM graduate courses
TBD-1313	M.Sc. Chemistry with Collaborative Specialization in Biochemistry	Edited	CHEM	Added wording that thesis is in the specialization.
MSC-62F	M.Sc. Chemistry with Concentration in Food Science and Nutrition	Edited	CHEM	Add language that the thesis is in the specialization.
MSC-7E	M.Sc. Chemistry with Specialization in Chemical and Environmental Toxicology	Edited	CHEM	Clarify that thesis is in the specialization

2018-19 Curricular Change Proposals

PHD-62	Ph.D. Chemistry	Edited	CHEM	CHEM graduate courses - removed #5 " At least three years of full-time study."
TBD-1318	Ph.D. Chemistry with Collaborative Specialization in Biochemistry	Edited	CHEM	Reorganized the order of the program, added reference to revised Comprehensive Examination notes, and clarified that thesis is in the area of specialization.
PHD-62F	Ph.D. Chemistry with Concentration in Food Science and Nutrition	Edited	CHEM	Change the wording for comprehensive examinations by removing note on topic and thesis supervision
PHD-7E	Ph.D. Chemistry with Specialization in Chemical and Environmental Toxicology	Edited	CHEM	Cleaned up the order of items in the program requirements so that they follow a logical sequence. Removed unnecessary "or" from program requirements.
TBD-1628	R-GR-Chemistry M.Sc.	Edited	CHEM	Removed reference to Thesis Advisory Committee for MSc. because there is no committee
TBD-1629	R-GR-Chemistry Ph.D.	Edited	CHEM	1. Removed reference to MSc, as the department does not have a Thesis Advisory Committee for that program. 2. Removed reference to University of Ottawa because we do not consult with them on our Thesis Advisory Committee.3. A brief summary is sufficient, and there will be follow-up meetings with the student throughout the thesis writing process.
TBD-1632	R-GR-Chemistry PhD Notes	Edited	CHEM	Rewriting information about of Comprehensive Examinations so it is clearer for students.
TBD-1631	R-GR-Chemistry PhD Program Requirements if from M.Sc.Chemistry	Edited	CHEM	Removed information that no longer pertains to the MSc program.
TBD-1138	Computer Science with Specialization in Data Science - Thesis Option	Edited	COMP	Changed wording in Note 1 and Note 2.

2018-19 Curricular Change Proposals

BUSI 5992	BUSI 5992: Tutorials/Directed Studies in Business	Added	A small number of MBA students with strong interests in specific topics have sought to complete a directed studies course with the support of a faculty member. At present, the only option is a 0.5 credit directed studies course. This new course will allow students to complete a shorter focused study of 0.25 credits. This option is of particular interest to the students in our MBA in Bogota who are required to complete a research project.
BUSI 6000	BUSI 6000: Seminar in Accounting I	Edited	Added piggy-backed MSc course (BUSI 5080)
BUSI 6001	BUSI 6001: Seminar in Accounting II	Edited	Added piggy-backed MSc course (BUSI 5081)
BUSI 6100	BUSI 6100: Seminar in Management I: Modern Organization Theory	Edited	Added piggy-backed MSc course (BUSI 5180)
BUSI 6101	BUSI 6101: Seminar in Management II: Current Topics in Organizational Behaviour	Edited	Added piggy-backed MSc course (BUSI 5181)
BUSI 6200	BUSI 6200: Seminar in Marketing I: Management and Strategy	Edited	Added piggy-backed MSc course (BUSI 5280)

2018-19 Curricular Change Proposals

MECH 5800	MECH 5800: Special Topics in Mechanical and Aerospace Engineering	Edited	Add x-ref to MAAJ 5850
MECH 5802	MECH 5802: Special Topics in Mechanical and Aerospace Engineering	Edited	Add x-list to MAAJ 5852
MECH 5803	MECH 5803: Special Topics in Mechanical and Aerospace Engineering	Edited	Add x-list to MAAJ 5853
MGMT 5111	MGMT 5111: Conflict and Negotiation	Edited	effective 2018-19
MGMT 5112	MGMT 5112: Power and Influence	Edited	effective 2018-19
MGMT 5113	MGMT 5113: Managing Teams	Edited	effective 2018-19
MGMT 5114	MGMT 5114: Managing Diversity	Edited	remove MGMT 5101 and MGMT 5102 from prerequisites.
MGMT 5115	MGMT 5115: Leadership	Edited	remove MGMT 5101 and MGMT 5102 from prerequisites
MGMT 5116	MGMT 5116: Managing Performance	Edited	remove MGMT 5101 and MGMT 5102 from prerequisites
MGMT 5117	MGMT 5117: Knowledge Management	Edited	remove MGMT 5101 and MGMT 5102 from prerequisites
MGMT 5120	MGMT 5120: Fundamentals of Leading and Managing Organizational Change	Edited	This change will limit access to the course for some students who have not demonstrated mastery of the key principles; however, this is necessary for a meaningful capstone course. Alternative approaches to ensuring adequate background preparation would be to limit the course to only those students who have completed the full suite of concentration courses or to impose a more rigid prerequisite structure for the capstone as in some other concentrations. These latter approaches would further limit access to the course to the detriment of some students who could otherwise successfully complete the course.
MKTG 5200	MKTG 5200: Marketing Strategy	Edited	Completing a client-based project will enhance the learning experience for students and their employability. Teaching assistants will be required to support the required skills tutorials.

Minor Modifications

PSYC 5417	PSYC 5417: Categorical Data Analysis	Added	add PSYC 5417 [0.5]
PSYC 6105	PSYC 6105: Psychological Aspects of Computer Use	Deleted	Delete course PSYC 6105 [0.5] Psychological Aspects of Computer Use
PSYC 6106	PSYC 6106: Social Aspects of Computer Use	Deleted	Delete course PSYC 6106 [0.5] Social Aspects of Computer Use
SERG 5000	SERG 5000: Cross Disciplinary Course in Sustainable Energy	Deleted	Replace 0.5 credit SERG 5000 with 1.0 credit SERG 5004.
SERG 5003	SERG 5003: Energy Evaluation and Assessment Tools	Added	Added in response to a gap in the program, identified during the CPR process.
SERG 5800	SERG 5800: Sustainable Energy Seminar	Edited	removed requirement to present a seminar
STAT 5516	STAT 5516: Nonparametric Statistics	Edited	The proposed changes reconcile the descriptions and titles of STAT 4506 and STAT 5516, so that they can be cross-listed.
STGY 5900	STGY 5900: Corporate and Business Strategy	Edited	Minor wording changes and implementation of a client-based project.
STGY 5903	STGY 5903: Strategic Concepts	Added	This course will take the place of two existing 0.25-credit courses in the core curriculum:• BUSI 5803 Managerial Economics – to be deleted, and• TOMS 5301 Modeling Business Decisions – to be removed from core but retained as an elective. Resources:At current enrolment levels, two sections of the new 0.5 credit course will need to be offered. Two sections of BUSI 5803 [0.25] will be cancelled and only one section – rather than two – of TOMS 5301 [0.25] will be offered. The net teaching resource requirement will be an instructor for one 0.25 credit course. Teaching assistants will also be required to support the required skills tutorials.
TOMS 5301	TOMS 5301: Modeling Business Decisions	Edited	The removal of one prerequisite will provide additional flexibility to students in course sequencing.

JOUR 5708	JOUR 5708: Advanced Journalism (Video)	Deleted	Deactivate JOUR 5708.

Glossary

The following glossary of definitions is intended to provide explanations of how certain, important terms are used throughout the Calendar. In rare cases where a discrepancy may occur between the definition provided in this Glossary and the use of the term in the remainder of the Calendar, the term as used in the remainder of the Calendar takes precedence.

The Glossary is not intended to be exhaustive; students should refer to Carleton's web site for other important information (e.g., www.carleton.ca/registrar; www.gradstudents.carleton.ca).

Except where noted, all definitions apply to undergraduate and graduate students.

Academic Performance Evaluation (APE)	The APE is the annual assessment of student academic standing in undergraduate degree programs and special studies. The possible outcomes of an APE are *Good Standing, Academic Warning, Suspension, Continue in Alternate, Continue in General, Dismissed from Program,* or *Debarment.*
Auditing Student	A student who attends a course for interest and not for credit; formal registration is required.
Calendar	The official publication of academic regulations, academic programs and course descriptions as approved by the Senate.
Certificate	An undergraduate certificate is a stand-alone Credential that may be taken concurrently with a bachelor's program or independently. It is normally constituted by a structured set of at least four credits of sequential year-level courses in a particular discipline or area of study that introduces students to, or extends their knowledge of, that discipline or area of study.
Challenge for Credit	Undergraduate academic course credit gained through examination based on a student's prior learning experience gained through professional or work experience. A successful challenge for credit is noted in the student's record as CH (unsuccessful noted as UCH); a CH is neither included in the CGPA calculation nor used to satisfy the degree program residency requirement. Challenge for Credit is not available in all courses.
Concentration	A program Element recorded on the transcript and diploma constituted by at least 3.5 credits of required courses at the undergraduate level and 1.5 credits of required courses at the graduate level that concentrates on a particular area of study within the program and provides the student with specific expertise, knowledge and/or practice.

Co-operative Education	An undergraduate or graduate Option comprising work periods combined with academic study to acquire work-related experience; the co-op option is intended to complement the student's academic study.
Core	A course or group of courses that are a subset of the courses that constitute a major in an undergraduate program. These are courses of special importance to undergraduate programs and are subject to specific CGPA requirements.
Cotutelle	An Option in any Ph.D. program. Doctoral students undertake to complete the requirements of a Ph.D. program in both their home university and a partner university in another country.
Course	A course is a unit of teaching that may count as credit towards the award of a Credential. Courses typically last one academic term and focus on one subject area with a prescribed sequence of units of study (lectures, seminars, tutorials, workshops, laboratories, assignments, essays, tests, examinations and so on). Courses are delivered by one or more instructors and have a fixed roster of students. Students receive a grade after completion of courses that count as credit towards the award of a Credential. Courses have unique eight-character alphanumeric course codes, titles and descriptions. The credit value is indicated in square brackets following the course number. 1. Numbers 1000-4000 designate undergraduate courses; 2. 0000-level courses are also available and may be required to satisfy pre-requisites; 3. Numbers 5000-6000 designate graduate courses.
Course Outline	Instructors are required to provide students in each course a written Course Outline (distributed in class or electronically), on or before the first teaching day for undergraduate courses, and before the last date for late registration for graduate courses. The course outline must specify all the elements that will contribute to the final grade, as well as the overall grade breakdown for the course.

Courses Set Aside	Courses that do not contribute to the fulfillment of graduation requirements within the student's program: 1. Extra to the Degree (ETD) – Passed credits that are in excess of the required credits; 2. No Credit for Degree (NCD) – Passed credits that are ineligible for credit in the student's program; 3. Forfeit – repeated courses, course equivalencies, preclusions, and courses placed in this category by an academic standing committee or an appeal committee.
Credential	An academic qualification awarded by the University Senate upon successful completion of an academic program. All credentials are either degrees (bachelors, masters, or doctoral), diplomas, or certificates.
Credit	The academic value of a course (e.g., 0.00, 0.5, 1.0etc.).
Credits Not in the Major	Credits Not in the Major are credits that must be taken in programs that require Credits Not in the Major from disciplines and intellectual areas other than those which constitute the discipline, disciplines or intellectual area of the major in such programs. Credits Not in the Major constitute one form of restricted electives.
Cumulative Grade Point Average (CGPA)	The key assessment tool for undergraduate Academic Performance Evaluation, and graduate and undergraduate graduation requirements and distinctions. The CGPA may be used in assessments for scholarships, medals and other milestones. The CGPA is the average of grade points earned on all courses required for and counting towards graduation from the student's current program (overall CGPA) – or the average of grade points earned on a subset of such courses (for example, those constituting the Major or a Minor) at the time the CGPA is calculated.
Degree	A Credential at the Bachelor, Master or Doctoral level awarded by the University Senate upon the successful completion of a prescribed set and sequence of program requirements at a specified standard of performance.
Diploma	Post-baccalaureate Diploma – a stand-alone undergraduate credential for candidates already possessing a bachelor's degree intended to: (a) qualify candidates for consideration for entry into a Master's program; (b) bring a candidate who already

possesses a bachelor's degree up to a level of a bachelor's degree of 20.0 credits or more in another discipline; (c) provide a candidate who already possesses a twenty-credit bachelor's degree in the same discipline the opportunity to bring their previous studies to current equivalents and/or to examine alternative areas], or (d) provide a candidate with a professional undergraduate credential for which the prior completion of an undergraduate degree program is appropriate.

Post baccalaureate diplomas are normally constituted by at least three and a maximum of five credits of advanced undergraduate courses.

Graduate Diploma:

Type 1: Awarded when a candidate admitted to a master's program leaves the program after completing a certain proportion of the requirements. Students are not admitted directly to a Type 1 Diploma.

Type 2: Offered concurrently with a master's or doctoral degree, the admission to which requires that the candidate be already admitted to the master's or doctoral degree program. A Type 2 Diploma represents an additional, usually interdisciplinary, qualification of 2 to 3 credits.

Type 3: A stand-alone, direct-entry program of 2 to 3 credits, generally developed by a unit already offering a related master's (and sometimes doctoral) degree, and designed to meet the needs of a particular clientele or market.

Discredit	For undergraduate students, a discredit is a course registration that results in a grade of F (failure) or UNS (unsatisfactory performance).
Dual Master's Degree	An Option in any Master's program. Master's students may opt to complete the requirements of a master's program in both their home university and a partner university in another country.
Element	Elements are: (i) Undergraduate: majors, minors, concentrations, and specializations; there are a maximum number of elements that may be taken in

	conjunction with a program at the undergraduate level; (ii) Graduate: concentrations. Elements are recorded on the transcript and the diploma.
Equivalency	Courses that are of equal credit value and which are considered to be similar enough that they always preclude one another and may serve interchangeably for the other in terms of prerequisites, co-requisites, and program requirements. These will be identified in the calendar as 'Also Listed As,' and are commonly referred to as 'cross-listed courses.'
Field	A Field occurs only at the graduate level, and is defined as an identifiable area of research activity undertaken by a group of faculty of sufficient number.
Flex Term	Flex-Term refers to the timing of delivery of 'asynchronous' on-line courses that are currently restricted to special students and in which they may register at any time. Special students may engage with the material of these courses at their own pace. The delivery of 'asynchronous' on-line courses does not therefore conform to the usual beginning and end of Carleton University terms.
Formative Assessment	Formative assessments are those assessments of a student's work carried out during the course that act to provide feedback and guidance to the student in addition to assessing the student's performance. .
Free Elective	Free electives are any approved credit course normally at the 1,000-level or higher – including courses from the discipline, disciplines or intellectual areas that identify the major of the degree program in question – that may be taken to make up the number of credits required for the degree program in question.
General Bachelor's Program	An undergraduate, non-honours Bachelor's program requiring a minimum of 15.0 credits.
Honours Bachelor's Program	An undergraduate Bachelor's program requiring a minimum of 20.0 credits; pathways to completion constituted by a thesis, research essay or significant project may demand a higher academic standard than a course-based pathway.
Internship	An internship is constituted through a course or sequence of courses that provides students with work experience directly related to the subject matter of their degree program, There are two types of internship:

	Program Internship – an Option constituted by a structured sequence of at least four credits of courses at different year-levels of an honours bachelors program taken in a work environment off-campus. A program internship provides students with extensive professional work experience directly related to the subject matter of their program. ***Course Internship*** – an individual course within a degree program taken in a work environment either on- or off-campus that provides students with professional work experience directly related to the subject matter of their program.
Letter of Permission	A formal document issued by the University Registrar approving a student to register in a course at another institution in lieu of a Carleton course in the student's academic program. The Letter of Permission must be issued before the student takes the course for credit in a Carleton program at another institution.
Major	A program Element recorded on the transcript and diploma. The major is constituted by the required course credits in one or more defined disciplines or intellectual areas that define the principle focus of a student's undergraduate program and constitute the basis for the calculation of the Major CGPA.
Major CGPA	The Major CGPA is calculated as the average grade points earned on the courses that constitute the major.
Mention Francais	An undergraduate Option noted on the transcript denoting specified courses taken in French, which may be used to fulfill program requirements.
Minor	A program Element at the undergraduate level recorded on the transcript and diploma. A minor is a structured set of credits that forma distinct sub-set of a program or intellectual area. Each Minor requires at least 4.0 and at most 5.0 credits. Access to minors may be restricted. A minor introduces a student to, or extends their knowledge of, a discipline or intellectual area.
Option	An optional addition to or component of a program with requirements distinct from those of an Element: (i) Undergraduate: co-operative education, study abroad, Mention Francais, program internship; (ii) Graduate: co-operative education, Cotutelle (in Ph.D. programs), Dual Master's Degree (in master's

	programs), collaborative specialization. Options may be taken in addition to elements and are recorded on the transcript and the diploma.
Pathway	A pathway through a program is a route to completion such as: stream, thesis, research essay, research project, or course only. Pathways may be chosen in addition to Elements and Options, and are not recorded on the transcript or diploma.
Prerequisite	A required course or courses that must be completed successfully before registering in the course that requires the prerequisite.
Preclusion	Courses that contain sufficient content in common that credit may not be earned for more than one of the courses. Courses that preclude one another are not necessarily considered equivalent and may or may not be interchangeable to fulfill program or specific element requirements.
Program	A specified combination of academic requirements in a discipline or intellectual area of study which leads to a credential (e.g., B.A. in Philosophy, Ph.D. in History, M.Sc. in Chemistry, Graduate Diploma in Public Policy and Program Evaluation, Certificate in the Teaching of English as a Second Language). There are five types of program at the undergraduate level: ***Single-Discipline General Program*** - A General Single Discipline program is a program of at least 15-credit in which the courses that constitute the program's major are drawn overwhelmingly from one discipline or intellectual area. ***Thematic General Program*** – A General Thematic program is an interdisciplinary program of at least 15 credits that concentrates on a particular interdisciplinary intellectual area or theme, and draws on courses within its major from at least three disciplines or intellectual areas. ***Single-Discipline Honours Program*** - A Single Discipline honours program is a program of at least 20 credits in which the courses that constitute the program's major are drawn overwhelmingly from one discipline or intellectual area; pathways to

	completion constituted by a thesis, research essay or significant project may demand a higher academic standard than a course-based pathway. ***Combined Honours Program*** - A Combined Honours program is a program of at least 20 credits in which a student fulfills the requirements for combined honours majors in two such majors from two different programs; pathways to completion constituted by a thesis, research essay or significant project may demand a higher academic standard than a course-based pathway. ***Thematic Honours Program*** - A Thematic Honours program is an interdisciplinary program of at least 20 credits that concentrates on a particular interdisciplinary intellectual area or theme, and draws on courses within its major from at least three disciplines or intellectual areas; pathways to completion constituted by a thesis, research essay or significant project may demand a higher academic standard than a course-based pathway.
Restricted Elective	Restricted electives are courses required to fulfill elective requirements in an undergraduate program that are not free electives. The courses that may fulfill restricted elective requirements in any program are in other words prescribed by the program. Students should refer to individual program descriptions to determine the courses that may fulfill restricted elective requirements for a program
Specialization	At the graduate level the term 'collaborative specialization' refers to an Option added to a degree program that provides an experience in a discipline or intellectual area in addition to that provided in the student's home program. At the undergraduate level, the term 'specialization' is reserved for specific areas of concentration in programs in which the courses constituting the program's specializations are delivered overwhelmingly by academic units other than the academic unit administering the program.
Special Students	Students not admitted to a program or a degree leading to a Credential.

Status	Full-time status for tuition fee purposes:
	1. Undergraduate students are full-time when registered in a 60% course load per term as defined by the student's academic program: for example, registered in at least 1.5 credits per term in a 2.5 credit normal term course load. Undergraduate students should consult the website of the Academic Advising Centre (URL) to determine their eligibility for various Provincial and University services according to the number of credits taken each term.
	2. Graduate students are normally admitted and must stay continuously registered as full-time. Students may apply to the Dean of Graduate and Postdoctoral Affairs for exemption from full-time status in exceptional circumstances (e.g., medical circumstances); exemptions are normally granted for one term.
	Part-time status for tuition fee purposes:
	1. Undergraduate students are part-time when registered in less than a 60% course load per term as defined by the student's academic program: for example, registered in less than 1.5 credits per term;
	2. Graduate students may be admitted as part-time students and will be required to continue and complete their program as part-time; a part-time student is not eligible to register in more than 1.25 credits per term, including audit courses.
Stream	A Pathway within an undergraduate program constituted by at least 2.0 credits of courses that facilitate concentration on a particular area of study within the program; streams are not recorded on the transcript or diploma.
Summative Assessment	Summative assessments are those assessments of a student's work carried out at the end of a course or the end of specific components of a course whose sole purpose is to constitute a judgement on a student's performance in the course or a specific component of the course.
Transfer Credit	Academic credit granted for individual courses successfully completed at another institution, either upon admission (admitted with advanced standing from secondary school, or transfer from college or

	university) or while registered with a Letter of Permission or on exchange.
Transcript	The official record of a student's academic registration and accomplishments at Carleton University.
Undeclared Students	Undergraduate students admitted to a degree who have not chosen a program ('declared a major') within that degree; normally, students are required to choose a program ('declare a major') before reaching second-year standing.
Withdrawal	A formal process for discontinuing studies in a course or a program. Undergraduate students who wish to drop all courses and terminate their registration in the academic program must follow the procedure available through the Registrar's Office. Students who have been away from the University for nine or more consecutive terms will be withdrawn and must re-apply for admission. Graduate students who wish to drop all courses and terminate their registration in the academic program must notify their department in writing of their intention to withdraw. Students who do not register for three consecutive terms or do not register continuously in their thesis, research essay, or independent research project will be withdrawn and must re-apply for admission.
