Title	R-UG-3.2.2 Three Attempts of a Course (Engineering)

Program Requirements

3.2.2 Three Attempts of a Course (Engineering)

A student in the Bachelor of Engineering degree may attempt a course no more than three times. An attempt shall include courses in which the student has earned a final letter grade, SAT, or UNS.

Some required courses for Engineering degrees have a prerequisite requirement that a minimum grade be achieved in one or more prerequisite courses. If, for any course required for their engineering degree, a ~~after three attempts, the~~ student has not earned the required prerequisite ~~achieved in any of the three attempts the minimum~~ grade necessary for that course by their required to continue in the program, or, if on the third attempt of the prerequisite course, the ~~a course the~~ student ~~will does~~ not be permitted to register in the required course, they can not meet the requirements to graduate, and achieve a passing grade, the student must leave the degree with the status Continue in Alternate (CA) or Dismissed from Program (DP).

If on the third attempt of a course the student does not achieve a passing grade, the student cannot meet the requirements to graduate (see the Bachelor of Engineering regulations) and must leave the degree with the status Continue in Alternate (CA) or Dismissed from Program (DP).

New Resources	No New Resources
Summary	Editing regulation 3.2.2 to highlight that the "minimum grade requirement" is higher than simply any passing grade (D-) for certain courses.
Rationale for change	The RO felt it would be beneficial to make clear that a student may require a certain grade in order to continue in their B.Eng. degree, and that failure to meet this threshold will result in removal from the degree. The RO and Eng CAS came up with the proposed wording.
Transition/Implementation	n/a - this rule is already being applied, and this edit is to improve the completeness of the calendar.
Program reviewer comments	<p>nataliephelan (04/26/22 12:43 pm): Language updated with H. Nemiroff and J. Talim.</p> <p>nataliephelan (04/29/22 12:00 pm): This wording compiled by H. Nemiroff, J. Talim, and N. Phelan.</p> <p>nataliephelan (04/29/22 12:05 pm): Incorporating further edits from Eng.</p>
