Summary	From: Kevin McEwan <KevinMcEwan@cunet.carleton.ca> Sent: November 25, 2022 11:51 AM To: Erika Strathearn <ErikaStrathearn@Cunet.Carleton.Ca> Subject: RE: Academic Schedule Fall 2023/2024 - Approved HI Erika, Although too late to make changes to the 23/24 dates and deadlines, I need to make a change for future Academic Schedules. Current: March 1, 2023 Last day for graduate students to submit their supervisor-approved thesis, in examinable form to the department. Proposed April 1, 2023 Last day for graduate students to submit their supervisor-approved thesis, in examinable form to the department. In all other terms, the date of thesis submission is approximately 1 month prior to the end of term, where in the Winter term, it is 2 months prior. I've consulted our team, and this may have been changed at some point to accommodate an early Senate date, however going forward, one month prior to the end of term is sufficient. Too bad I missed this for 23/24, however I will be notifying Departments that in practice, we will be instituting an April 1 deadline for W22 and W23. Please let me know if there is a more formal manner in which this future request should be made, or if this email is sufficient. Thank you. Kevin
Rationale for change	Per the email above, Grad Studies is moving the winter term thesis submission deadline so it's approx. 1 month before the end of the term, so that winter patterns with fall and summer.

BIOL 5404	BIOL 5404: Biological Data Science in R	Added	GR	SCI	New course in statistics. The course ran as BIOL 5502 with 20 students taking it for credit + 5 auditors in winter 2022. There was a wide range of ability, from students who had no prior experience with R, to users with > 3 years of experience. This presented some challenges but was also useful for peer feedback and role modelling. To accommodate the wide range of experience, I designed assignments to have some flexibility and optional "go further" sections. Students also took turns evaluating each other on biweekly assignments and reported that the peer evaluations were a learning opportunity as well.	
CHEM 5010	CHEM 5010: Bio-Organic Chemistry	Added	GR	SCI	Add piggyback course to new course CHEM 4207.	
DATA 5002	DATA 5002: Data Science, Ethics Society	Added	GR	SCI	This is a new course, an approved elective, for the DSA program.
