OWNING YOUR OWN DEFINITION OF SUCCESS

Nicole Belanger

*Owner & Founder
Nicole Belanger Media*

The pursuit of success drives many of the most significant personal and professional decisions that we make in our lives. But how many of us can actually articulate what success means to us? When was the last time you were invited to hit pause for a moment and reflect on what it is you are really pursuing in life? Through the lens of my personal story of how death and loss forced me to rethink success in my life, this workshop will take students through a series of reflection exercises and activities designed to help them discover their personal definition of success. This workshop will also explore how students can apply this new insight to their education experience and career choices.

"COURAGEOUSLY LIVING A LIFE THAT IS TRUE TO YOUR VALUES AND DESIRES IS ONE OF THE MOST POWERFUL WAYS TO BE A LEADER."
