

STUDENT ACTIVITIES FUND

The Student Activities Fund is administered through the Student Experience Office. Applications for funding may be submitted by Carleton University Student Organizations, recognized student groups, and individual students. The approval of an application for funding depends upon the availability of funds. Applications must be submitted by the student(s) who is participating in the event.

Activities eligible for consideration include individual or group requests to participate in educational conferences or events which will:

- enhance a student's leadership potential;
- promote Carleton University externally; or,
- complement the student's in-class experience.

Criteria for funding include:

- Being a registered undergraduate student at Carleton University.
- Only one application per student or group per academic year will be accepted.
- Liability considerations, which may include the submission of a Student Event Risk Management Form.

Funds are not intended to support existing projects, co-operative education, staffing needs, thesis projects, student exchange travel expenses, summer fieldwork placements, laboratory operating costs, or individual educational program requirements.

The Student Activities Fund does not support requests from Graduate students. Please contact the Faculty of Graduate and Postdoctoral Affairs for funding.

If you have any questions, please contact cux@carleton.ca
