

2015

Bursill, J., Cruickshank, C.A. “Heat Pump Water Heater Control Strategy Optimization for Cold Climates”, Proceedings of ASME 2015 Power and Energy, 9th International Conference on Energy Sustainability, Annual Meeting of the American Society of Mechanical Engineers, San Diego, CA, June 2015.

Bowie, D., Cruickshank, C.A. “Solar-Driven Sorption Chillers for Residential Space Cooling: A Review of Recent Developments and Possible Applications in Canada”, Proceedings of ASME 2015 Power and Energy, 9th International Conference on Energy Sustainability, Annual Meeting of the American Society of Mechanical Engineers, San Diego, CA, June 2015.

Baldwin, C., Cruickshank, C.A., **Bowie, D.**, “Design and Commissioning of an Experimental Set-up to Evaluate the Performance of a Solar Absorption Chiller with Thermal Storage”, Proceedings of ASME 2015 Power and Energy, 9th International Conference on Energy Sustainability, Annual Meeting of the American Society of Mechanical Engineers, San Diego, CA, June 2015.

Baldwin, C., Cruickshank, C.A., Schiedel, M., Conley, B. “Comparison of Steady-State and In-situ Testing of High Thermal Resistance Walls Incorporating Vacuum Insulation Panels”, 6th International Building Physics Conference, Torino, Italy. June 2015.

2016

Ouellette, D., Matida, E., Cruickshank, C.A. “A Single Domain Approach to Resolving Liquid Saturation Jumps within a Flowing Electrolyte - Direct Methanol Fuel Cell”, Proceedings of the 21st World Hydrogen Energy Conference 2016. Zaragoza, Spain, June 2016.

Conley, B., Baldwin, C., Cruickshank, C.A., Carver, M. “Comparison and Validation of Modelling Methods for Non-homogenous Walls Incorporating Vacuum Insulation Panels” Proceedings of the 4th International High Performance Buildings Conference – Purdue University, West Lafayette, IN, USA. July 2016

Conley, B., Cruickshank, C.A. “Evaluation of Thermal Bridges in Vacuum Insulation Panels Through Steady-State Testing in a Guarded Hot Box, Proceedings of eSim 2016, Hamilton, ON, May 2016.

Baldwin, C., Cruickshank, C.A. “Using TRNSYS Types 4, 60, and 534 to Model Residential Cold Thermal Storage Using Water and Water/Glycol Solutions”, Proceedings of eSim 2016, Hamilton, ON, May 2016

Baldwin, C., Cruickshank, C.A. “Assessing the Potential for Reduction in Peak Residential Electrical Loads using a Heat Pump and Thermal Storage Systems” Proceedings of the High Performance Buildings Conference – Purdue University, West Lafayette, IN, USA. July 2016

2017

Wert, S., Cruickshank, C. A., Groulx, D. “Characterization of an Air-PCM Energy Storage Design for Air Handling Unit Applications”, Proceedings of the ASME 2017 Summer Heat Transfer Conference, Annual Meeting of the American Society of Mechanical Engineers, Bellevue, Washington, July 2017.

Conley, B., Baldwin, C., Cruickshank, C.A., Carver, M. “Challenges of High RSI-value Building Envelope Retrofits”, Proceedings of the 15th Canadian Building Science and Technology Conference. Vancouver, British Columbia. November 2017.

2018

Ulmer, T.K., Hayes, A., Baldwin, C., Cruickshank, C.A., "Investigating the Thermal Performance of Expanded Polystyrene as a Function of Core Temperature using Static and Dynamic Thermal Conductivity Values", Proceedings of the eSim 2018 Conference, Montreal, May 2018.

McNally, J., Baldwin, C. and Cruickshank, C.A., "Using Adsorption Cooling and Thermal Solar Collection for Residential Cooling", Proceedings of the ASME 2018 International Mechanical Engineering Congress and Exposition. Pittsburgh, Pennsylvania. Nov. 2018.

Conley, B., Cruickshank, C.A. and Carver, M. "Hygrothermal Analysis of a Vapour-Open Assembly with Vacuum Insulation Panels." Proceedings of the 7th International Building Physics Conference. Syracuse, New York, Sept. 2018

Brown, M., Pelletier, J-F., Castonguay, G., Cruickshank, C.A. "Resilient Design, Commissioning and Operation of the Canadian High Arctic Research Station", Proceedings of the ASHRAE 2018 Winter Conference, Chicago, IL. January 2018. **Best Student Paper Award.**

Bardy, D.A., Cruickshank, C.A., Tezel, F.H., Hua, Y., Wong, W.P., "Early investigations of the effects of fluidization on water vapor adsorption for thermochemical energy storage", Proceedings of EnerSTOCK2018 14th International Conference on Energy Storage, Adana, Turkey. April 2018.

Baldwin, C. and Cruickshank, C.A., "Using Forecasted Daily Maximum Temperatures to Control a Chiller Thermal Storage System", Proceedings of the ASME 2018 International Mechanical Engineering Congress and Exposition. Pittsburgh, Pennsylvania. Nov. 2018.

Baldwin, C. and Cruickshank, C.A. "Offsetting Peak Residential Cooling Loads Using a Medium Temperature Chiller and Sensible Cold Thermal Storage", Proceedings of the 7th International Building Physics Conference. Syracuse, New York. Sept. 2018
