# **SIGNALS Summer Mentorship Program**

---

Mentor the Next Generation of  
Leaders in Sustainable Energy and  
the Environment

# 2025 SIGNALS Summer Mentorship Program

- Equip students and recent graduates with guidance for navigating careers in policy, engineering or explore different career paths related to sustainable energy and the environment.
- Encourage knowledge-sharing between generations of sustainability practitioners.
- Support equity, inclusion, and accessibility in green career pathways.

## WHY BE A MENTEE?

- Grow your professional network.
- Build confidence in your skills and abilities.
- Learn about different opportunities.
- Develop new soft skills like communication, goal setting, and problem solving.

## REQUIREMENTS

- The program is open to recent Carleton graduates (within the last 2 years) as well as current students from the following programs:
  - MASc in Sustainable Energy
  - MEng in Sustainable Energy
  - MPP in Sustainable Energy and the Environment
  - MPPA (with at least one energy or environment elective)

**\*\*Priority will be given to students who are currently in their 1<sup>st</sup> year and those graduating in June or November 2025**

## TIMELINE

- **April 14–29:** Registration period
- **Week of May 7:** Mentor-mentee pairings sent via email
- **In-person kick-off event (Date TBD, optional)**
- **September 12:** Official end of the program – though we encourage pairs to stay in touch!
