

Letter A

Dear Members of the Scholarship Committee,

I am writing to recommend Kevin Lau for the Barbara Frum scholarship for undergraduate researchers. He was in my HIST 333, Immigration to Canada class in the Fall 2022 term, and I have followed his academic progress over the past year.

As a student, Kevin has demonstrated a love of learning and the level of commitment necessary to succeed in university and beyond. I am happy to be able to provide this recommendation for such a deserving student. As his academic record attests, Kevin has maintained an exemplary average in his courses. In the 2022-23 Academic Year, his hard work and dedication to Historical research into early Chinese immigration into Northern Ontario were rewarded with a University of Canada Excellence Award (UCEA). Kevin has earned the respect of many of my colleagues for his dedication to this research, and we believe he is a deserving candidate.

Kevin has distinguished himself as a dedicated young scholar through his work in my and other classes in the Department of History. In addition to having firsthand knowledge of Kevin's academic commitment and talent, I am familiar with his educational goals and the challenges he has faced in attending an English-medium University in his second language. More impressive, he has accomplished this success in one of our institution's most challenging programs. I cannot think of anyone more deserving, and I wholeheartedly support his application.

I am confident you will be just as impressed with Kevin as I am. As an educator committed to helping deserving students succeed, I strongly encourage you to consider him for this scholarship, as it will allow him to continue his ethnographic study of the Chinese immigrants in Northern Ontario by supporting the travel costs.

Please do not hesitate to contact me with any questions and let me know if I can provide additional information supporting this deserving student.

Warm regards,

*** This letter is a work of fiction with the exception of the scholarship name.**
