Modern Languages Information

Required Qualifications:

For positions in **Modern Languages** (other than American Sign Language – see below), the required minimum qualifications are an MA in an appropriate field (relevant to the language in question); however, a PhD in an appropriate field will normally count as a superior qualification. Given the nature of our programs, a degree specialization in language pedagogy or applied linguistics will normally be considered as more relevant to the position than a degree in literary and/or cultural studies. Some successful university teaching experience is also required, as is native or near-native proficiency in the language. Because our School highly values the in-house generation of curricular content, a desired qualification is experience in developing curricular content and assessment tools.
