WORK EXPERIENCE

Consultant, International Institute for Sustainable Development (IISD), Reporting Service (Nov 2008 – Dec 2013).

-Writer, Editor, and Team Leader for teams reporting on international environmental negotiations and meetings for global forest and ocean issues

Research Associate, Yale University School of Forestry and Environmental Studies (Aug 2002 – Aug 2003).

-Traced and assessed explanations for the political evolution of forest certification in North America and Europe (continuation of work done for contract in 2001).

-Developed and conducted research examining factors influencing the forest certification policy choices made by US forest companies.

Contract work, Yale School of Forestry and Environmental Studies (Sept 2001 – Aug 2002).

-Traced and assessed explanations for the political evolution of forest certification in North America and Europe.

Research Scientist, Faculty of Forestry, Department of Forest Resources Management, UBC (Sept 2001 – Jul 2002).

-Designed and undertook research examining forest certification and the attention program standards and audits give to the conservation and management of forest genetic resources.

-Developed comparison and analytic tools for examining the quality of forest management internationally, and explored how the structure of the global forest sector influences the implementation of sustainable forest management initiatives.

Forest Resources International (FRI) Consulting (Feb 2001).

-Performed research on the status of endangered species in the United States and Canada for a comparative study of policy instruments designed to address species protection in the two countries.

Forestry Commission Northern Research Station, Scotland (Jul – Aug 1999).

- Designed and established a research project that sought to assess the level of wind protection provided by trees planted on farms.
- Assisted with refining a decision-making tool for determining the optimum location for tree planting on farms that considered visual, wind protection, timber and wildlife objectives.
- Aided with ongoing research examining the timber quality of plantation trees.

Norske Institutt for Skogforskning (NISK), Norway (Jul – Aug 1998).

- Carried out research studying wood drying and log-defect prevention for inventoried logs.
