# PHD – PUBLIC POLICY

## MEHDI AMMI

Associate Professor  
Graduate Supervisor, PhD Public Policy

Professor Ammi's research spans health economics, applied microeconometrics and health policy. His research is primarily quantitative. He also uses other approaches, such as synthesis and comparative case studies, to study health policy relevant questions in Canada and abroad.

## HONOURS

FPA Research Productivity Award, Carleton University, 2018-2019  
Travel Award, Canadian Institute of Health Research, 2015  
Start-up Grant, Faculty of Public Affairs at Carleton University, 2013  
Postdoctoral Fellowship, Canadian Institute of Health Research, 2012-2013  
Doctoral Research Grant, LEG-CNRS, 2008

## A NOTE FROM PROF. AMMI

"The PhD in Public Policy is a life-changing experience that will prepare you for careers in academia, governments and civil society. You will be exposed to a variety of methodological and theoretical approaches that will allow you to address the policy issues you have at heart. You will benefit from a strategic location in the national capital, in the oldest program of its kind, with a solid network of program alumni. We hope you will consider joining us."

# MPPA

The Master of Public Policy and Administration (MPPA) empowers you to become a versatile, analytical and independent thinker who is well-connected, well-informed and ready for a career working in or engaging with the public sector.

Students have a variety of options including two co-op terms, a final-year capstone course, a concentration in IPA, a specialization in data science or a Type II Graduate Diploma.

**AMANDA CLARKE**  
Associate Professor  
Graduate Supervisor, MPPA

Professor Clarke's research examines public administration reform, public service delivery and the relationship between state and non-state actors, focusing in particular on the impact of digital technologies in these domains. She is the author of *Opening the Government of Canada: The Federal Bureaucracy in the Digital Age* and a research fellow with the Canada School of Public Service.

In 2021 she was awarded a Government of Ontario Early Researcher Award and included in Apolitical's list of the Top 100 Most Influential Academics in Government.

## A NOTE FROM PROF. CLARKE

"The SPPA is an excellent place to begin or grow an existing career in public policy. Our students join a strong and massive alumni community that they can draw on for the rest of their careers, which makes it a very unique and exciting place to be a student"

# MA-SE

The Master of Arts in Sustainable Energy prepares you to be part of the solution to some of the most difficult problems facing modern society. By strengthening your background in the technical and political dimensions of energy problems and decision-making, you will be able to interpret and respond to energy issues holistically and communicate effectively across disciplinary boundaries.

**ALEXANDRA MALLET**  
Associate Professor  
Graduate Supervisor, MA-SE

Professor Mallett's experience spans academia and the public sectors, working on the design, implementation and evaluation of energy, climate change and environmental policy. She has worked for the Canadian government, an intergovernmental organization and academic institutions. Research areas include an examination of the innovation, cooperation and adoption processes involved in sustainable energy technologies, especially in emerging economies, and Canada and the United States.

## A NOTE FROM PROF. MALLET

"The MA in Sustainable Energy prepares you to be part of the crucial transition away from the fossil fuels that are having profound effects on our world including driving climate change, increasing pollution and contributing to deforestation, putting all of our futures at risk. The MA-SE takes an interdisciplinary approach by examining the engineering considerations, economic implications and policy instruments that influence the burgeoning field of sustainable energy."

# MPNL & DPNL

The full-time Master of Philanthropy and Nonprofit Leadership (MPNL) prepares you to be a leader and innovator in non-profits, social enterprises, philanthropic foundations, development offices, governments, financial institutions and businesses that interact with them. A shorter Graduate Diploma (DPNL) enables working professionals to upgrade their knowledge and skills to meet the challenges of this rapidly changing sector.

**SUSAN PHILLIPS**  
Professor  
Graduate Supervisor, PNL

Professor Phillips's research focuses on public policy and regulation of philanthropy and the nonprofit sector, financing of charities and nonprofits, cross-sectoral collaboration, community foundations and place-based philanthropy

## HONOURS

Visiting Fellow, Australian Center for Philanthropy and Nonprofit Studies, 2020  
J.E. Hodgetts Award for Best Paper published in Canadian Public Administration, 2018  
Distinguished Research Career Recognition, CAPPA, 2019  
Distinguished Service Award for Contributions and Leadership in Research and Practice of Nonprofits and Social Economy (ANSER-ARES)

## A NOTE FROM PROF. PHILLIPS

"The nonprofit and philanthropic sector accounts for 1 in 10 full-time jobs in Canada and is an important partner with governments and the private sector. The only graduate program of its kind in Canada, the MPNL produces leaders, innovators and changemakers for this sector. Find out more."

# DPPE

Our online graduate Diploma in Public Policy and Program Evaluation prepares you to take on the roles of evaluators and managers of evaluation. Our graduates now serve as analysts and evaluators in all levels of government, and the private and non-profit sectors.

You can complete the program in 16 months without relocating and while remaining employed. DPPE graduates interested in further study can use course credits towards the Master of Public Policy and Administration.

## GRAEME AULD

Professor

Graduate Supervisor, DPPE

Professor Auld's research focuses on comparative environmental politics and policy, global environmental governance, and the rise of private governance and authority. Much of his work examines the formation, evolution, and impacts of non-state and hybrid forms of global governance across economic sectors. He also researches the design and efficacy of policy aimed at tackling global problems such as climate change

## A NOTE FROM PROF. AULD

"I have paid particular attention to the rise of private certification programs that set standards for responsible business practice and award compliant companies with reputational or market benefits. Where have these initiatives come from? How do they work? Why do companies adhere to their rules? How do they establish their authority and legitimacy? What problems are they likely to solve? I use qualitative and quantitative data and methods to study these kinds of questions, with the aim of understanding how private governance compares to traditional forms of public policy, how the two interact, and what all of this might mean for attempts to govern our collective human footprint."

# IPA DIPLOMA & CONCENTRATION

Delivered through a combination of online courses and summer intensives, the Graduate Diploma in Indigenous Policy and Administration enables you to be a leader in nation-building and social justice. You will build a deep awareness of the legacies of Canada-Indigenous relations and learn to incorporate community-based, Indigenous knowledge in your work.

The IPA can also be completed as a concentration within the MPPA.

**JENNIFER STEWART**  
Associate Professor  
Graduate Supervisor, IPA

Professor Stewart's areas of research include health economics, labour economics, policy analysis, cost-benefit analysis, microeconomics and research methods.

## HONOURS

CAUT Dedicated Service Award, 2015

Dean's Award for Excellence in Graduate Research (Social Science), 1999
