

COURSE DELIVERY OPTIONS

Fall 2021 Academic Term

FACE-TO-FACE

Students meet on-campus in the designated classroom at the scheduled time. Face-to-Face sections can include flipped teaching approaches (e.g., cohort-based rotations).

Note: Max of 60 students per on-campus delivery.

ONLINE

Students interact with the course materials completely online. The course may be self-paced (asynchronous) or require meeting online at a specified time (synchronous).

Note: Combining asynchronous and synchronous elements creates a blended course.

HYFLEX

Students choose day to day how they will attend each class, either in person on-campus or online via Zoom. Students attending online may actively participate in the course.

Note: Online and on-campus students are part of the same section. Max enrollment of the section is limited to room capacity (current max of 60 students per on-campus delivery).

PARALLEL ONLINE

The technology in the room allows for the live lecture to be recorded for asynchronous viewing for on-campus or distance students.

Note: Requires Dean's approval. Max enrollment of the on-campus section is limited by room capacity or max of 60; however, the size of the parallel online section is not limited.
