What We're Working On

Carleton University

Our Strategic Plan

- Aligns with the SIP, Finance and Admin plan, and the new Digital Strategy

- We plan for the academic year

- We focus on three key areas

Products and Services

- We will establish positive relationships with key stakeholders to develop digital products that support the university's goals.

- We will support all developers on campus by creating an engaged and creative network centered around the Raven Design System (RDS).

Key Deliverables

- Events Calendar

- cuTheme

- Intranet

- Support OVPSE on the new Mobile App

Client Support

- We will engage the community and provide amazing support to our clients through training, tutorials, workshops, and events.

- We will be leaders in digital accessibility by implementing best practices and educating Carleton content creators.

Key Deliverables

- Coffee Break

- cuTheme Communications

- New Training and Workshop Offerings

The Way We Work

- Helps streamline our work and support our development cycles.

- We will foster an environment of continuous improvement through agile methodologies, training and development, and openness to new technologies and ways of doing things.

- We will work in a healthy environment where people feel heard, supported, included and valued.

Key Deliverables

- Documentation

- Team get togethers

- Continue to refine our agile processes

- Web Governance

Web Governance
